This corporation, located at 1610 State St., Boise, Idaho, filed a registration statement with the SEC on Aug. 13, 1959, covering 300,000 shares of class B (non voting) common stock. The company proposes to offer 200,000 shares for public sale through J. A. Hogle & Co.; and the remaining 100,000 shares are to be offered for sale to employees, officers and directors of the company. The public offering price and underwriting terms, and the subscription price to employees, officers and directors, are to be supplied by amendment.

officers and directors, are to be supplied by amendment.

The company operates one department store, three drug stores, and a chain of 52 retail self-service, cash and carry supermarkets in Idaho, Washington, Utah and Oregon. There are 11 stores presently under construction which are expected to be in operation by March 1960. The net proceeds of the sale of the class B shares will be added to the general funds of the company and will be used (with other funds) for the purpose of purchasing fixtures, equipment and inventory necessary for the fixturing, stocking, opening and operation of from 16 to 21 new supermarket units in 1959 and the forepart of 1960. Five of these stores have already been opened in the first six months of 1959.

The company now has outstanding 3,360 shares of 6% preferred stock (\$100 par) and 1,401,793 shares of class A common stock (in addition to certain indebtedness). Alsoo, Inc., of Boise owns 716,225 shares (\$1.09%) of the class A stock and Mountain States Wholesale Co., also of Boise, 241,875 shares. J. A. Albertson, company President, owns 91.66% of the capital stock of Alsco, Inc.; and be also owns 92,500 shares of the class A stock of the company.

Alabama Gas Corp.—Bonds Offered—Public offering of \$4,000,000 51/8% first mortgage bonds, series E, due Aug. 1, 1984, at 101.058% and accrued interest, to yield 5.05%, was made on Aug. 19 by Halsey, Stuart & Co., Inc. and associates. The group won award of the bonds at competitive sale on Aug. 18 on a bid of 100.08%.

Competing bids for the issue, all for a 5¼% coupon, included White, Weld & Co., 101.1799%; Merrill Lynch, Pierce, Fenner & Smith Inc., 101.059%; Salomon Bros. & Hutzler, Equitable Securities Corp. and R. S. Dickson & Co. Inc. (jointly) 100.1599.

The bonds will be entitled to a sinking fund through which \$100,000

principal amount of bonds will be retired annually at prices ranging from 101.06% in 1960 to 100% in 1984. Optional redemption prices range from 106.19% to 100%, except that no redemption may be carried out for five years as part of a refunding operation involving the incurring of debt with an interest rate of 5.119% or less.

PROCEEDS—Proceeds from the financing will be applied toward the retirement of outstanding bank loans and to provide funds for the construction of property additions.

The company estimates that it will spend approximately \$10,000,000 for additions and improvements to its facilities in the 1959 and 1960 fiscal years. Additional cash required to complete the 1960 construction program will be obtained from short term bank loans and funds from operations.

BUSINESS—The corporation is engaged primarily in the purchase, sale and distribution of natural gas and operates principally in central Alabama. Its largest distribution system serves the Birmingham.

American Israeli Paper M Listing of Stock-

Listing of Stock—

The Board of Governors of the American Stock Exchange have approved for original listing 2,098,794 American shares of this company, which was organized in 1951 under the laws of the State of Israel. It is the principal producer of paper in that country. In the 12 months ended July 31, 1958, the company's mill produced 18,689 tons of paper, which was approximately 85% of the total amount of paper produced in Israel during that period and approximately one-third of the total amount of paper produced or imported into Israel during that time. The principal grades of paper it produces are printing and writing papers, newsprint, and wrapping, bag, shipping sack and packaging papers.—V. 190, p. 665.

# ESTIMATED CORPORATE FINANCING IN **NEXT FOUR WEEKS**

The volume of corporate debt and equity issues scheduled to reach the market in the four-week period Aug. 24-Sept. 18, aggregating \$414,-176,169, represents a decrease of about \$62,000,000 from the total of \$487,779,000 which was on tap for the preceding period of Aug. 17 to Sept. 11. The bulk of the decline is found in the equity financing category.

A glance at the calendar beyond our current terminal date of Sept 18, incidentally, indicates a tremendous build-up in the volume of debt issues scheduled to reach the market during the balance of the year. Among the larger debt issues already planned for marketing in that period are: \$45,000,000 New England Telephone & Telegraph Co. debentures on Sept. 21; \$20,000,000 Northern Natural Gas Co. debentures (also a like amount of preferred stock) on Oct. 1; \$25,000,000 Columbia Gas System debentures on Oct. 8; \$50,000,000 Philadelphia Electric Co. bonds on Oct. 14; \$250,000,000 A. T. & T. debentures and \$20,000,000 Florida Power & Light Co. bonds, both on Nov. 17, and \$50,000,000 Consolidated Edison Co. bonds on Dec. 1. Also due, probably in October, are \$25,000,000 debentures of Sylvania Electric Products Co., a division of General Telephone & Electronics Corp.

The table below breaks the data down for each week of the fourweek period ahead classified in terms of bonds and stocks. The data are obtained by the Corporate Financing Department of the Commercial and Financial Chronicle from private and official sources. They deal with public sales and exclude private placements.

#### Corporate Demand for Capital

AMF Atomics, a division of this company, is completed by the end of the year, according to Morehead Patterson, AMF board chairman.

The 1,000 kilowatt reactor facility, which will be boosted to 5,000 kilowatts in the future, situated on the sand dunes near Rishon leZion, will open a new phase in Israel scientific studies. The new reactor will enable nuclear scientists to study the various problems of operating atomic reactors as well as engage in 2 broad range of fundamental atomic structure research.

In addition, the reactor will produce substantial quantities of isotopes which will permit Israel scientists to undertake a major program.

The announcement added that construction had begun on a new 24,000 square foot Marine Division factory, to be built on a ten acre site in North Redondo Beach, California.

Last month, American Marc purchased Cregar Marine, Seal Beach, Calif., manufacturer of wood boats.

In acquiring the assets of Rocket Marine, Inc., American Marc bought the company's inventory and production facilities. The Rocket Marine building itself is under lease to American Marc.

Commenting on the expansion of the Marine Division, Mr. Kendall said: "The American Marc line of boats will give to the boating public, for the first time, the most up to date boat construction, combined with the advantages of United States made Diese's. With the elimination of fire hazard, reduction by more than one-half of fuel costs and the greater durability of diesel engines, Americans can now look forward to carefree boating with great manuverability, dependable performance and low cost."

Mr. Kendall added that he expected sales of the new Marine

Mr. Kendall added that he expected sales of the new Marine Division to be at least \$5,000,000 in the coming year.

American Marc is now in production of a complete line of wood and fibreglass boats in outboard and inboard models. The wood boat line includes: power boets from 14 foot runabouts to 27 foot cabin cruisers; three sailboats—an 18 foot daysailor, a 24 foot sailboat, and a 30 foot sloop or yawl.

Fiftreglass hosts include a 19 foot cabin cruiser which will be available.

Fibreglass boats include a 19 foot cabin cruiser which will be available in either inboard or outboard models; two 17 foot diesel powered inboards, and a 14 foot and 15 foot runabout.

The company is establishing a national sales and distribution organization for its boating line. Rocket Marine's full dealer network in 11 western states will also be offered the marine division franchise.

Grover M. Hermann, Chairman of American-Marietta, stated that the

newly acquired operations will be consolidated into an independent division under existing management.

Earlier this year American-Marietta entered the concrete aggregates field by acquiring the Superior Stone Co., of Raleigh, N. C. Superior is an essential supplier of basic construction materials in the Southeast and operates quarrying and processing plants in Virginia, North Carolina, South Carolina and Georgia.—V. 190. p. 46.

#### Amican Petroleum & Natural Gas Corp. Ltd.—State-

ment Withdrawn-

The registration statement filed with the SEC on March 23, 1959, covering 745,000 shares of capital stock (no par) of which 500,000 shares were to be sold for the company and 245,000 by the holders thereof, was withdrawn on July 31.—V. 189, p. 1462.

#### American Potash & Chemical Corp.-To Enlarge Plant

The corporation on Aug. 13 announced that work has begun to enlarge its \$4,400,000 sodium chlorate plant at Aberdeen, Miss., by 50% to satisfy increased consumption by the pulp and paper industry. The expansion project, which will represent an investment of approximately \$1,250,000, will raise production capacity at Aberdeen from 15,000 tens per year to 22,500 tens. Completion is scheduled for October, 1960.

1960. ty of the Aberdeen plant combined with that of American Capacity Potash & Chemical Corporation's Henderson, Nev., facility will exceed 50,000 tons of scdium chlorate per year to make the company the world's largest producer.

Cost of the current expansion is relatively low because part of the original \$4,400,000 plant investment included provisions for increasing production 166% if market conditions warranted such a move. In addition to the present expansion, another 50% increase can be made at correspondingly low cost.—V. 189, p. 1789.

#### American Telephone & Telegraph Co. - Debenture Issue Authorized-

Directors of the company Aug. 19 authorized a new debenture bond issue of \$250,000,000 to be offered at competitive bidding.

It is expected that bids will be opened on Tuesday, Nov. 17, 1959. The trustee will be The Hinover Bank.

The last debt issue of this kind offered by the company was on Oct. 29, 1957 when a \$250,000,000 issue was sold. Proceeds of the new issue will be used for the improvement and expansion of Bell telephone services.—V. 190, p. 354.

#### Automatic Canteen Co. of America - Reports Record Sales and Earnings-Contracts With RCA-Victor for Lease of Its Background Music Libraries-

This company on Aug. 17 reported record sales and earnings for the three-quarters of its 1959 fiscal year. Nathaniel Leverone, Chairman of the Board, also announced details of a contract with the RCA Victor Record Division of Radio Corp. of America for lease by Automatic Canteen of RCA's famous background music libraries.

Sales and operating revenues of Automatic Canteen in the third quarter ended June 6, 1959 were \$32,405,198—an increase of 9.62% over sales of \$29,562,464 in the third quarter of 1°58. Net earnings for the 1959 third quarter were \$1,262,893, equivalent to 55 cents per share). Net earnings for the third quarter in 1958 were \$727,168, or 32 cents per share.

or 32 cents per share.

Net income for the three quarters ended June 6 1959 was \$2,979.274, or \$1.29 per share (including non-recurring income of \$203.200, equal to nine cents per share). This compares with \$2,353.891, equal to \$1.03 per share for the first three quarters of 1958 (which also included an item of non-recurring income equal to seven cents per share)

an item of non-recurring income could to seven cents per share. Concerning the new contract with RCA Victor, Mr. Leverone said it will enable Automatic Canteen and its distributors to furnish the finest complete package of background music available for industrial, commercial, and public locations. The RCA libraries, compiled over many years, consist of over 4,000 selections especially selected, arranged, and catalogued for background music.

"The background music field has a vast potential which fits in perfectly with the large and efficient distribution network which Automatic Canteen has established over the years in connection with its vending operations," Mr. Leverone said.

"Our acquisition of AMI, Inc. last March," he added, "was made with this move in mind. We would not attempt to enter the background music field full-force, however, until we acquired the best musical libraries available in the U. S. This we have now done through

musical libraries available in the U. S. This we have now done through the contract signed with RCA.

"AMI has developed and is already producing the finest mechanical instrument for our background music operations," he said.

Automatic Canteen's new background music instrument is a high fidelity set with a 33½ rpm turntable. Mr. Leverone said that the company decided on the 33½ rpm speed "after long study and research in cooperation with RCA Victor."

"Automatic Canteen," he said, "is convinced that 33½ is the best speed for the production of finest quality high fidelity background music with complete reliability of performance."

Automatic Canteen contemplates distribution of its background music throughout the U. S., Canada, Europe, and South America—everywhere the company is now in business, Mr. Leverone concluded. v. 189, p. 2346.

# Avco Corp.—Receives \$5,800,000 Air Force Contract— Additional contracts totaling \$5,800,000 for bomber fire control systems and spare parts were announced on Aug. 14 by the company's Crosley Division. Earlier this year, Crosley announced a letter contract from the U.S. Air Force for \$3,100,000 for ASG-15 fire control systems used on the B-52 jet bomber. Mounted in the tail of the B-52 bomber used by the Strategic Air Command, the fire control system is designed to locate and track approaching enemy aircraft, and then automatically directs the fire of four 50 caliber machine guns.—V. 190, p. 662.

#### Brush Beryllium Co .- Registers With SEC-

Brush Beryllium Co.—Registers With SEC—

This company on Aug. 20 filed a registration statement with the SEC covering a proposed public offering of \$6,500,000 of 15-year convertible subordinated debentures. The offering will be made by a group to be headed by Kuhn, Loeb & Co. and McDenald & Co. The coupon rate, offering price and conversion price will be determined immediately before the offering. The debentures will carry a sinking fund which will commence in 1963 and is designed to retire about 60% of the issue prior to maturity.

The company is engaged primarily in the production of beryllium, and its alloys and compounds, and beryllium copper. It also engages in research and development work, primarily for the U. S. Government and its contractors. Principal plants are located at Elmore and Cleveland, Ohio, and Reading, Pa. The company's products are being used in missiles and aircraft, in atomic energy reactors, in the manufacture of sensitive instruments for the aircraft and other industries and in business machines and communications and electronics equipment.

Net proceeds from the sale of the debentures will be used to retire present long-term indebtedness, to finance a portion of the company's expansion program, and for increased working capital required by the company's increased volume of business. The expansion program contemplates construction of additional beryllium metal extracting and fabricating facilities and beryllium copper fabricating facilities at the Elmore plant; construction of a new plant at Hayward, Calif., near San Francisco, for the production of machined beryllium shapes; and expansion of beryllium oxide production and fabrication facilities.

The company's sales amounted to \$7,961,000 in 1957, \$12,669,000 in 1958 and \$9,173,000 for the six months ended June 30, 1959.

Burlington Industries, Inc.—Term Loan, Etc.—J. Spen-

#### Burlington Industries, Inc.—Term Loan, Etc.—J. Spencer Love, Chairman and President, before the New York Society of Security Analysts on July 23, 1959, said in part:

Society of Security Analysts on July 23, 1959, said in part:

Although Burlington has outstanding many debt and equity issues, this has been necessary in order to obtain diversification and development money when and as it was available. In retrospect past financings all looked very good. The company has just completed negotiations for an additional term loan of \$30 million for new programs.

Burlington sales for this fiscal year, which will end on Oct. 3, will be close to \$800 million—up from the \$651 million last year. Due to the conversions that are taking place every day in the company's subordinated debentures it is difficult to forecast exact per share earnings. However, on the basis of estimated average shares outstanding, current fiscal year earnings should be close to \$3.00 per share with each quarter showing improvement over the preceding one. Assuming full conversion of the debentures, common stock outstanding will increase by approximately 20% as compared to a year ago. As of the close of business, July 22, \$10,130,000 or about 34% of the 4½% and \$1,316,000 or about 19% of the 5.4% have been converted.

converted.

Based on current conditions, and not too unfavorable effects from the steel striks, earnings for the December quarter of the calendar year which will be the first quarter of the next fiscal year should be in the range of 80 to 90 cents a share, even after allowing for conversion of all remaining debentures outstanding. This will indicate reasonably sound assurance of better than \$3.00 earnings for the 1960 fiscal year. Looking beyond 1960, there are enough new plants, projects and acquisition already in process to forecast an earnings range around \$4.00 per share for the 1961 year with reasonable continuance of present conditions. With the stronger and stronger position that is planned for Burlington Industries within the textile industry it is my opinion that, barring a national calamity or serious depression, Burlington's sales and earnings will continue to grow.—V. 188, p. 2739. -V. 188, p. 2739.

#### Burndy Corp.—Six Months' Earnings Rise-

This corporation, located in Norwalk, Conn., earned \$0.49 per share for the six months ended June 30, 1959 on 991,137 shares, the average number of shares outstanding during the period, according to Bern Dibner, President.

Bern Dibner, President.

This represents first half net earnings of \$481,822 which compares with the \$273,715 or \$0.29 on 948,637, the average number of shares for the similar period of the preceding year.

Based on the number of shares outstanding at the end of the period June 30, 1959 earnings per share were equal to \$0.42 on 1,-138,637 shares. Earnings for the similar period last year were equal to \$0.29 on 948,637 shares outstanding at the end of the period June 30, 1958.

Shipments during the first half of the current year were \$13,479,000. as compared with \$10,390,000 in the corresponding six months of 1958. Incoming orders for the same period were \$15,054,000 as compared to \$10,431,000 last year.

All of the above results include the operations during May and June of the H. H. Buggie Division, whose assets were acquired on April 30, 1959.—V. 189, p. 2867.

#### Coastal Caribbean Oils, Inc.—Reports Agreement With Standard Oil Co. of California Subsidiary-

Standard Oil Co. of California Subsidiary—

This company on Aug. 18 reported that an agreement has been reached with The California Co., a Standard Oil Co. of California subsidiary, providing for the exploration of 4,000,000 acres of Florida offshore leases held by Coastal Petroleum Co. a Coastal Caribbean subsidiary, and the drilling by the California Co. within the next three weeks of the first well ever to be put down in the Gulf of Mexico off the northwest Florida coast. The agreement also provides for Coastal Caribbean to conduct a limited program of drilling on an additional 500,000 acres in the Lake Okeechobee area.

Joseph H. Himes, Coastal Caribbean President, in a report to the company's stockholders stated that the agreement seeks to improve Coastal Caribbean's flexibility in the light of the suit of the Federal Government against Gulf Coast States contesting ownership of Gulf of Mexico water bottoms lying more than three geographic miles from the coast. The case, in which Texas, Louisiana, Mississippi, Alabama and Florida are defendants, originally was scheduled for hearing before the Supreme Court of the United States in October of last year but has been postponed until October 13 of this year.

The Florida offshore well to be drilled by the California Co. will test a seismic structure located about 1½ miles off the coast of Franklin County. It will seek production in the Tuscaloosa sands, which are currently productive of oil in nearby Alabama and Mississippi, Drilling will be undertaken from a submersible barge to a depth of approximately 7,000 feet. It is estimated that 90 days will be required to reach the total objective depth. A 10,000-acre block assigned

required to reach the total objective depth. A 10,000-acre block assigned

to this well, which will be drilled at California's sole expense, will be owned 50/50 by Coastal Caribbean and The California Co.

As an outgrowth of the Government's suit, Coastal Petroleum recently from the State of Florida an abatement of the drilling requirements on its west coast leases applicable to acreage lying within the disputed area. The land title suit affects about two-thirds of the 4,000,000 acres contained in these leases, and hence the abatement is of major significance in protecting the company's investments in the area.—V. 188, p. 2141; V. 190, p. 688.

#### Coleman Co., Inc.—Forms New Division—

A new division of this company, to be known as "Coleman-Europe" will begin operations about Jan. 1, 1960, it is announced by Sheldon Coleman, Coleman President and Board Chairman of the 60-year-old heating, air conditioning and outing products manufacturing company. All Coleman manufacturing, distributing and administrative operation in Europe will be centered in the new division, Mr. Coleman said.—V. 189, p. 2348.

## Comptometer Corp.—Reports Profit—Stock Sold Pri-

The corporation earned \$61,075 during the first six months of this year, compared with a \$98,403 loss in the same period of 1958.

A. E. Carlson, President, said net sales for the period, including rental income and service revenue, were \$7,478,000, compared to \$5,572,000 for the like period last year. The 1958 earnings do not include results of operations of the Burke Golf Equipment & Sales Corp. acquired March 31, 1959, he pointed out.

Mr. Carlson said necessary working capital for the production of equipment in the communications program, other related capital expenditures, relocation of facilities and other corporate purposes, was financed through the private sale of 4,500 shares of 6½% cumulative convertible preferred stock at par value, or \$450,000, the sale of which is subject to listing approval of the New York Stock Exchange, and through the private placement sale of 32,000 shares of its common stock in July, with net proceeds of \$528,000 realized.

In July, Comptometer entered into a long-term lease with the Grey-hound Corp. for a modern, 100,000-square-foot, one-story building in Niles, Ill. Mr. Carlson said this will provide adequate facilities for the newly formed Communications and Electronics Division, and for research and development work now being carried on in several dispersed locations in Chicago suburbs.

Mr. Carlson also reported the Acquisitions Committee of Comptometer is studying a number of potential acquisitions and it is hoped that some of these may be finalized in the near future.

Last year the company acquired the Union Thermoelectric Corp., Evanston, Ill.; it introduced its new Comptometer Coronet portable dictation machine and started pilot production of the Electrowriter, an instantaneous graphic record communicator.

This year the company entered the leisure field through acquisition of Burke Golf, manufacturers of golf equipment; acquired Radiation Electronics Corp., Skokie, Ill., developer and producer of infra-red detection and measurement devices; and expects to be in production of the Electrowriter this Fall.—V. 189, p. 2672.

In a record turn-out of 88% of the registered voters, the people of Manton, Mich., voted to sell the municipal Electric System, including hydro and diesel generating facilities, to this company. The Michigan utility will integrate Manton with its state-wide electric system.

An 82% vote in favor of Consumers \$175,000 offer was recorded in a return of 339 to 75 at the election held July 29.—V. 190, p. 668.

#### Control Data Corp.—Registers With SEC-

This corporation, located at 501 Park Ave., Minneapolis, filed a registration statement with the SEC on August 17, 1959, covering \$9,594 shares of common stock. The company proposes to offer this stock for subscription by common stockholders at the rate of one new share for each eight shares held of record Sept. 3, 1959. The subscription price and underwriting terms are to be supplied by amendment; Dean Witter & Co. is listed as the principal underwriter.

The company is engaged in the design, development and manufacture advanced, fully-transistorized, high-speed digital computing sys-ns and components. Net proceeds of its stock sale will be added its general funds and used for working capital and other corporate purposes.-V. 188, p. 1345.

#### Devoe & Raynolds Co., Inc.—To Reclassify Stock—

The shareholders will vote at a special meeting Sept. 9 on a proposed recapitalization through reclassification of its class A and class B shares into one common stock.

Devoe, a subsidiary of Merritt-Chapman & Scott Corporation, is a major producer of consumer paints, industrial finishes and a wide range of resins, plastics and chemicals for coating and other manu-

Currently, the authorized capitalization of Devoe consists of 587,500 shares of class A stock with a par value of \$2 per share, of which 443 263 are outstanding, and 300 000 shares of class B common stock of \$1 par value, of which 181,791 shares are outstanding.

The class A stock, voting as a class, elects one-third of the company's board of directors and receives dividends equal to twice the rate paid on the class B stock. The class B stock elects two-thirds of the company's board of directors.

Under the recapitalization proposal, Devoe shareholders will receive one share of the new common stock for each share of class A and one for each two shares of class B stock. A total of 5,000,000 new common shares, with a par value of \$2 per share, will be authorized under the proposal.—V. 190, p. 356.

Dooley Aircraft Corp.—Registers With SEC—

This corporation, located at 105 West Adams St., Chicago, filed a registration statement on Aug. 14, 1959, with the SEC covering 506,250 shares of common stock. The company proposes to offer 375,000 shares for public sale at \$2 per share. The offering is to be made on a best efforts basis by Mallory Securities, Inc., for which it is to receive a selling commission of 40c per share. In addition, Dooley Aircraft has agreed to pay the underwriter for expenses in the amount of 10c per share on the 375,000 shares sold for the company. The underwriter also will receive common stock at 1c per share at the rate of one share for each four shares sold for the company until a total of 93,750 such shares have been given. These shares will be offered with the shares offered for the company, but only after 100,000 shares have been sold for the company; then the 25,000 shares earned by the underwriter to that point may be sold and thereafter the underwriters may sell one share for every four shares sold for the company. The aggregate commission thus payable is \$374,062, or about 99c per share. An additional 37,500 shares are issuable at 1c per share to three individuals as a finders fee, which may also be sold at \$2 per share after 100,000 shares have been sold by the company.

Dooley Aircraft was organized under Delaware law on May 7, 1959, for the purpose of engaging in the designing and production of aircraft, particularly a single-engine, two-place airplane suitable for the business executive. The company intends to take a known airplane of proven reputation, but out of production, and have it redesigned around a larger engine, which will enable it to attain the desired speed of 200 miles per hour. Upon completion of such redesign, the company intends to have the airplane produced for it for delivery to its distributors and purchasers. It has entered into an agreement with Meyers Aircraft Co. whereby it received an option to enter into an agreement for the purchase prise the well

#### Dynamic Electronics, New York, Inc.—Acquisition—

Jack M. Winer, President, on Aug. 12 announced the execution of a contract to acquire the Capehart Corp. Included in the acquisition will be all Capehart patents, licenses, and trademarks in the United States and abroad. Dynamic Electronics also obtains all design, research, and engineering data, as well as rights to manufacture and distribute Capehart high fidelity, stereophonic phonographs, radios, tape recorders, and television instruments. The firm will acquire the complete inventory of Capehart components, replacement parts and equipment.

The Capehart line will be manufactured and distributed by the Capehart Division of Dynamic Electronics-New York, Inc. According to Mr. Winer, Capehart wil Isoon again reactivate its military and industrial electronic division and is planning considerable engineering manpower for this segment of the business.

Dynamic will introduce in January a complete new Capehart line featuring a series of high fidelity stereophonic instruments. The new line will contain many innovations in electronic circuitry and sound reproduction of Capehart quality.

Dynamic Electronics, established in 1930, presently manufactures custom high fidelity censoles for selected retail firms and department stores. In addition, Dynamic Electronics also merchandises its own line of stereophonic high fidelity consoles under the trade name "Dynamic," ranging from \$179 to \$495. The firm also manufactures and distributes a complete line of high fidelity components, including amplifiers, tuners, speaker systems, TV and Hi-Fi accessories. Dynamic is a substantial cortractor to the armed forces in research, development, and manufacturing of electronic equipment.—V. 189, p. 44.

Eagle Food Centers, Inc.—Stock Offered—Offering of 188,500 shares of common stock (par \$2.50) was made on Aug. 19 at \$17.50 per share. Of the total offering, 168,500 shares are being offered publicly by an underwriting group headed by Merrill Lynch, Pierce, Fenner & Smith Inc. and 20,000 shares are being offered by Eagle Food Centers to employees. Any of the shares not purchased by employees by 3 p.m. (CDST) on Aug. 19, 1959 will be purchased by the underwriters. The offering was oversubscribed.

PROCEEDS—The company will receive proceeds from the sale of 160,000 of these shares; 28,500 shares are being sold for the account of selling stockholders. The company will use these funds to redeem all of the preferred stock of a subsidiary (which will then be whollyowned); to pay outstanding 6% subordinated notes; to purchase equipment in four stores leased from G & W Realty, Inc.; and to pay off chattel mortgages on equipment in five other stores. The balance will be added to general funds to meet, in part, expenses of opening six new supermarkets in 1960.

BUSINESS—The company operates a chain of 30 supermarkets, 18 of which are located in the "Quad-City" area (Davenport, Iowa, and Rock Island, Moline and East Moline, Ill., plus adjoining communities). Ten super markets are operated in various eastern Iowa cities within 165 miles of the Quad-City area. Two supermarkets have been opened within the past year in the Chicago area, also approximately 165 miles from the Quad-Cities. #### General Dynamics Corp.—Unit Awarded Contract—

General Dynamics Corp.—Unit Awarded Contract—
The Honorable Raymond O'Hurley, Canada's Minister of Defense Production, on Aug. 17, announced the successful completion of negotiations with the Lockheed Aircraft Corp. and the General Electric Co: covering the manufacture in Canada under license of the Lockheed F-104G aircraft. The Government announced the selection of the Orenda Engines Division of A. V. Roe Canada Ltd. as the manufacturer of the engines and Canadair Ltd. as the manufacturer of the engines and Canadair Ltd. as the manufacturer of the airframe. Canadair is a wholly-owned subsidiary of General Dynamics Corp.

The Government will, accordingly, enter into a contract on the basis of the Canadair offer to produce the 200 airframes required at a ceiling cost of \$91.5 million excluding variable costs under control of the Crown, and based on the present specifications of the F-104G. This figure is a ceiling price; accordingly, the cost to the Crown will be actual cost not exceeding this ceiling. If the actual cost is less than the ceiling price, the savings will be shared on the basis of one-third to the company and two-thirds to the Crown.

The contract with Orenda Engines Ltd. will be on a similar incentive basis.—V. 190, pp. 155 and 258.

#### General Electric Co.—Large Contracts Received—

A progressive improvement in the placement of orders for large

A progressive improvement in the placement of orders for large capacity steam turbine-generator units by the nation's electric utilities was noted on Aug. 16 by W. S. Ginn, General Electric Vice-President and General Manager of the company's turbine division.

In a statement to the employees of General Electric's Schenectady (N. Y.) plant and to the community, Mr. Ginn reported that in the first seven months of this year the Large Steam Turbine-Generator Department had received contracts for units with a total capacity of over 2,000,000 kilowatts.

He compared this total to last year when "all companies which manufacture such machines received orders for less than two million kilowatts making 1953 one of the worst order years in recent history."

The steam turbine-generator industry since the end of World War II has noted definite five-year cycles of ordering by the electric utilities with two or three years of heavy ordering, and a sparse number of contracts in the other years.

"The steam turbine-generator order outlook for 1960 is even better," Mr. Ginn said. "We expect 1960 to be an excellent year for orders, resulting in higher employment letels in 1961 and 1962."

Mr. Ginn informed the General Electric employees that plant-wide employment would continue to drop this year, as previously reported, but that it would increase again in 1960.

He reported that at the Large Steam Turbine-Generator (LST-G) Department, which is the plant's largest department, employment would decline about 1,000 instead of the 1,500 to 1,800 anticipated earlier this year.

Earlier this year Mr. Ginn announced that LST-G Dept. manage-

earlier this year.
Earlier this year Mr. Ginn announced that LST-G Dept. management was able to save about 500 jobs by moving into 1960 six steam turbine-generator units not scheduled for delivery until 1961.
Mr. Ginn said that en-ployment at the remainder of the production departments and service organizations at the Schenectady Plant should be steady throughout the remainder of this year and rise slightly in 1960. Plantwide en-ployment is expected to remain at about 22,000 during 1960.—V. 190, p. 670.

General Magnaplate Corp.—Stock Offering Completed— Robert L. Ferman & Co., Inc., and Casper Rogers Co., on Aug. 14 publicly offered 75,000 shares of common stock (par 50 cents) at \$4 per share. This offering has been completed, all of the said shares having been sold.

#### General Mills, Inc.—Split Voted—To Inc. Dividend—

The stockholders on Aug. 18 approved a plan to split the common shares on a three-for-one basis.

An amendment to the company's Certificate of Incorporation will be filed on Aug. 28 and will be effective immediately. The additional shares resulting from the split are expected to be distributed to stockholders in September and the first quarterly dividend on the split shares to be paid in November. The board of directors has announced its intention to make the first quarterly dividend payable Nov. 2, 1959, 30 cents per share, which would be equivalent to an annual rate of \$1.20 per share on the split shares or \$3.60 per share on the present shares. This amounts to a 20% dividend increase.

With the same vote, stockholders changed the value of the company's common stock from no par value to a par value of \$3 per share. The number of authorized shares was increased from the present 3,000,000 to 10,000,000. The company indicated that it has no immediate plans for issuance of the additional shares of common stock authorized.

Gerald S. Kennedy, Chairman of the Board, and Charles H. Bell, President, gave stockholders a summary of the Board, and Charles H. Bell, President, gave stockholders a summary of the fiscal year ended May 31 which set all-time company sales and profit records. Mr. Bell pointed out that last year's return on beginning net worth was 11.8% as compared with 10.8% in 1957-58.

Looking ahead, Messrs Bell and Kennedy forecast a continuing need for substantial investment, in new and modernized facilities. Present indications are that approximately \$25,000,000 will be needed in

indications are that approximately \$25,000,000 will be needed in 1959-60. Typical of these facilities is the new package foods plant in West Chicago and the new Research Center in Golden Valley. Minnesota. Such a program is a "must' 'for long-range growth and success, they said.—V. 190, p. 670.

Intowata Oil Co.—Offering Permanently Suspended—
In a decision announced Aug. 17, the Securities and Exchange Commission permanently suspended a Regulation A exemption from Securities Act registration with respect to a proposed stock offering by this Denver. Colo., company, because of material deficiencies in its revised offering circular, including particularly the failure to disclose that an expired option on an oil and gas lease, which option constituted its only asset, probably could not be renewed.

In rejecting the company's request that it be given a further opportunity to amend the offering circular and that an earlier temporary suspension order be vacated, the Commission declared that Illowata had "not demonstrated such good faith and other mitigating circumstances" as would justify the relief requested.

The company had proposed the public offering of 900,000 common shares at 10c per share pursuant to the conditional exemption from registration provided by Regulation A. In its prior decision of Dec. 4, 1953, the Commission had ruled that Illowata's offering circular contained several material deficiencies in that, among other things, it contained misleading statements concerning the prospect of oil recovery from a 200-acre oil and gas lease on which Illowata had obtained an option. The option had been obtained in November 1967 from NYK Oil Co. and constituted Illowata's sole asset. However, under the special circumstances presented, the Commission had then agreed to consider a revised offering circular which had been submitted after the hearings; but it observed that "before we will consider such amendments", there must be a clear showing of good faith and of other mitigating circumstances in connection with the deficiencies" and that the opportunity to amend cannot be permitted "to impair the required standards of careful and honest filings under the Regulation and encourage a practice of irresponsible or falso material followed by correction by amendment of the deficiencies found by the staff in its

the Offering Circular in final form would refer to a valid and subsisting option."

The Commission concluded, however, that it was clear that Illowata knew by June 1958 that it did not have and probably could not obtain an option to purchase the lease. Nevertheless, it was not until April 1959, after the Commission's staff had requested proof of a subsisting option, that disclosure was made that no option existed and nonsecould be obtained. Illowata failed to disclose these facts either in oral argument before the Commission in July 1958 or in its answer to the staff's report on the revised offering circular in Jan. 1959.—V. 181, p. 2643.

#### International Bank of Washington-Hold'gs Exchanged

Major General George Olmsted, President, on Aug. 18 announced that through the process of exchange and dissolution, International Bank has disposed of all of its holdings of the securities of Oceanic Trading Co., Inc. Marvil Corp., Inc. and Landair Associated Corp., Inc., receiving in lieu thereof 238,706 shares of the common stock of Financial General Corp., and 211,232 shares of the common stock of Equity Corp.—V. 189, p. 2351.

# International Telephone & Telegraph Corp.—Earns. Up

A 24% increase in net income from operations and an increase of \$89,000,000 in orders on hand for the second quarter of 1959, compared with the same period one year ago, was announced on Aug 12 by this corporation.

H. S. Geneen, in his first report to shareholders since his recent

H. S. Geneen, in his first report to shareholders since his recent election as President, said earnings were equal to 50 cents per share after special items on 15,120,671 average shares outstanding, contpared to 44 cents on 14,353,368 shares outstanding in the second quarter of 1958. Six months earnings were 93 cents per share, contpared with 86 cents a year ago.

Scond-quarter sales and revenues totaled \$188,525,424, an increase of 13% over the \$166,962,408 reported in the same quarter last year. Sales and revenues through June 30 amounted to \$359,510,194. In the same six-month period in 1958 they were \$322,395,548.

Net income after special items was \$7,628,622 for the second quarter against \$6,320,635 last year. On the same basis, net income for a six-month period was \$14,015,737, compared with \$12,346,828 in the same period of 1958.

The special items are a non-recurring profit from the sale of the ITT Headquarters Building, 67 Broad St., New York, N. Y., and write-down of equity in net current assets of the Spanish companion to reflect the recent devaluation of Spanish currency.

Orders on hand last June 30 totaled approximately \$579,000,000, compared with \$490,000,000 on the same date last year.

Mr. Geneen reported there has been no change in the status of the Cuban Telephone Co. since the last interim report. An Intervenor appointed by the Cuban Government directs operation of the company and there has been no indication when the administration will be returned to the management of the company. He said every effort is being made to bring about a mutually satisfactory solution to this situation. to this situation.

100,000 100,000 100,000 A method of transforming a few cents worth of a rust-like substance into a nearly perfect crystal worth hundreds of dollars to the electronics industry was disclosed on Aug. 17 by this corporation.

the electronics industry was disclosed on Aug. 17 by this corporation.

"Various types of crystals have already proved to be workhorser of electronics in devices ranging from transictor radios to radar stations and radio telescopes," Dr. C. D. W. Thornton, ITT Laboratories Vice-President, said.

"The ITT process now opens promising avenues in electronic research by making available in quantity and size more perfect ferror monocrystals with which scientists have been anxious to experiment, Dr. Thornton said.

The rare crystals are synthesized from a mixture of ferric oxide, a form of common rust, and other oxides, it was explained.

A typical crystal, grown by a process known as "flameless fusion" and developed by ITT Laboratories, Nutley, N. J., was displayed by the ITT Components Division at the 1959 Western Electronics Show and Convention (Aug. 18-21) at San Francisco, Calif. The crystal approximately 1½ inches long and 34 of an inch in diameter.

In a press conference here, Frank M. Viles, vice-president of the ITT Components Division, explained that the many kinds of crystal used in electronic components have either of two kinds of structures—polycrystalline or monocrystalline.

"Devices composed of polycrystalline ferrite have well-known and valuable properties", Mr. Viles said. "But the anticipated uniqual properties of monocrystalline ferrites have been beyond the reach upper the composed of polycrystalline ferrites have been beyond the reach upper the composed of polycrystalline ferrites have been beyond the reach upper the composed of polycrystalline ferrites have been beyond the reach upper the composed of polycrystalline ferrites have been beyond the reach upper the composed of polycrystalline ferrites have been beyond the reach upper the composed of polycrystalline ferrites have been beyond the reach upper the composed of polycrystalline ferrites have been beyond the reach upper the composed of polycrystalline ferrites have been beyond the reach upper the composed of the crystalline ferrites have be

"Because the degree of efficiency of monocrystals used in electronic components usually depends on high purity and perfection of structure, engineers have understandably been desirous of thoroughly testing high quality mononcrystalline ferrites," Mr. Viles said. In ITTL's flameless fusion, a thermo-chemical reaction is accomplished by using high frequency radio energy in a small metal loop to generate high temperature. A specially prepared powder is sifted through the loop and is heated in passage to approximately 2000 degree Fahrenheit. Under appropriately controlled conditions it coalesces, on cooling, into a monocrystal.

Previously, engineers had tried oxygen-hydrogen gas as the source of the intense heat necessary for "growing" the monocrystals. Because of difficulties of control and enclosure, this method usually resulted in impure crystals with structural imperfections. Now that oxygen or other controlled atmospheres can be used with this process for crystal synthesis, the potentialities of other crystalline systems may be unlocked.—V. 190, p. 672.

Receives Order for Airborne Electronic Equipment—
The Federal Aviation Agency has placed an order with the corporation's Federal Division, Clifton, N. J., for air-borne electronic equipment that will provide navigational assistance to pilots of the FAA's
cwn fleet of aircraft.

D. L. Mills, President of ITT Federal, said the contract called for
more than \$250,000 in DMET (Distance Measuring Equipment TACAN)
interrogators and indicators.
Combined with VOR direction indicating equipment, DMET forms the
airborne portion of VORTAC, the common air navigation system being
implemented throughout the nation by the FAA.

The FAA plans to install the units in the many different types of
planes it employs. Identical DMET units already have been installed
in commercial airliners as well as the new VC-137 Air Force jet transports of the Military Air Transport Service.—V. 190, p. 672.

#### International Tuna Corp., Pascagoula, Miss. - Files With Securities and Exchange Commission-

The corporation on Aug. 11 filed a letter of notification with the SEC covering 175,000 shares of class A common stock (par 50 cents) to be offered at \$1 per share, through Gates, Carter & Co., Inc., Gulfport, Miss.—V. 189, p. 1795.

#### Investment Trust for the Federal Bar Bldg.—Registers With Securities and Exchange Commission-

This Washington, D. C., organization filed a registration statement on Aug. 14, 1959, covering 500 Beneficial Trust Certificates in The

Trust.

The Trust is the assignee of the title and interest of Richard H. Swesnick and Herbert Blum to a contract dated July 29, 1959, with Federal Bar Building Corp., which has agreed to acquire a land site located at 1809-15 H St., N. W., Washington, D. C., and to construct a modern office building thereon which will house the general head-quarters of the Federal Bar Association and its library, as well as offices for rent to members of the Federal Bar Association and others desiring to lease office space in the building. After completion of the construction of such office building, Federal Bar Building Corp. will convey the land and office building to the Trust for a total purchase price of \$3,150,000. The office building is to have about 100,000 gquare feet of floor space; and it is contemplated that construction will start shortly after Jan. 1, 1960, to be completed in about fifteen months.

will start shortly after Jan. 1, 1960, to be completed in about fifteen months.

Of the purchase price, \$1,150,000 is to be paid by the Trust in cash; and the balance is to be financed by a \$2,000,000 trust note secured by a first deed of trust on the land and office building. The purpose of the offering of Trust certificates, at \$2,600 each, is to sequire funds to be advanced to Federal Bar Building Corp., which funds will constitute the cash payment for the land and office building when construction is completed. Upon conveyance of the land and office building when construction is completed. Upon conveyance of the land and office building corp.

The current president of the Federal Bar Association is Earl W. Kintner, Chairman of the Federal Trust Commission, who is also President of Federal Bar Building Corp. Trustees of the Investment Trust are Herbert Blum, Samuel J. Gorlitz, and Dana Hodgdon. The Investment Trust has entered into agreements with Hodgdon & Co., Swesnick & Blum Securities Corp., and Investor Service, Inc., pursuant to which such companies will act as underwriters for the sale to the public of the certificates. The underwriters will receive commission in the amount of 10% of the selling price.

#### Investors Diversified Services, Inc.—Gets SEC Extension on Sales Load Reduction-

The SEC has issued an order under the Investment Company Act granting an application of Investors Diversified Services, Inc., Minneapolis investment company, for an extension of the temporary exemption from SEC Rule 22d-1 heretofore granted to permit the sale of shares of its affiliated companies to three associations on the basis of a reduced sales load applicable to quantity purchases. The associations are the Los Angeles Physicians Retirement Association, Los Angeles Dentists Retirement Association and University Retirement-Investment Association; and the previous temporary exemption expired Aug. 20, 1959. The temporary exemption was extended by the Commission for a period ending at the close of business 31 days after the date of issuance of an order by the Commission granting or denying a pending application that the temporary exemption be made permanent.—V. 190, p. 462.

The company, 20 Exchange Place, New York, N. Y., will until Sept. 15, 1959, receive tenders for the sale to it of its class A debentures, to an amount sufficient to exhaust the sum of \$100,000 at the lowest prices offered.—V. 123, p. 840.

#### Laure Exploration Co., Inc.—Statement Withdrawn—

The registration statement filed with the SEC on Dec. 23, 1958 covering 400,000 shares of common stock (par \$1) was withdrawn on Jan. 28, 1959, according to the SEC.—V. 188, p. 2744.

## (R. G.) LeTeurneau, Inc.—New Drilling Platform—

A four-page folder with 10 illustrations has been prepared to show the workings of a proposed "super-deep water" offshore drilling plat-form—a platform which can easily change locations in waters up to

300 feet.

Produced by this corporation, the folder depicts some of the results of three years research by the company's marine engineers.

Illustrations show how the "slanted legs" of the tripod platform will provide maximum stability. Also illustrated is the convenience in towing from one location to another, plus the relatively short time required for lowering the legs and raising the deck.—V. 189, p. 2567.

#### Leece-Neville Co.-In A. C. Motor Field-

Production facilities for its newly acquired line of a.c. motors will be located in Gainesville, Ga., it was announced on Aug. 3 by P. H. Neville, President.

The company recently purchased this line from the O. A. Sutton Co., Wichita, Kansas. It marks Leece-Neville's first venture into the a.c. motor field; it has long been recognized as one of the nation's leading manufacturers' of alternator-rectifier systems, generators, motors and voltage regulators for automotive, marine, aircraft and industrial applications.

According to present plans, limited production will be flowing from the Gainesville Division by early Fall.—V. 189, p. 2567.

Leeds Travelwear, Inc.—Stock Offered—Public offering of 262,500 shares of class A common stock (par \$1) at a price of \$5.75 per share was made on Aug. 21 by a group headed by Auchincloss, Parker & Redpath and G. H. Walker & Co.

PROCEEDS—Net proceeds from the financing, approximately \$1,294,-703 will be used by the company to prepay in full \$837,031 non-interest bearing purchase money obligations and the balance of the proceeds will be added to the company's general funds and will be available for expansion and additional working capital.

EARNINGS—For the 10 months ended April 30, 1959, the company reported sales of \$5,965,890 and net income of \$278,100, equal to 57 cents per share as compared with sales of \$4,796,477 and net income of \$84,867, equal to 17 cents per share in the like period of

BUSINESS—Leeds Travelwear, Inc., through its 11 wholly-owned subsidiaries is an important manufacturer and distributor of a diversitied and complete line of soft zippered luggage and travel cases and of bowling ball bags. The company is also a large distributor of colf bags.

CAPITALIZATION—Upon completion of the current financing, outstanding capitalization of the company will consist of \$125,000 in current bank loans; 350,000 shares of class A common stock; and 400,000 shares of the class B common stock.—V. 190, p. 360.

#### Ling-Altec Electronics, Inc.—Acquisition—

This corporation has just acquired all the outstanding stock of Continental Electronics Manufacturing Co., a leading designer and producer of super high power transmission equipment, for \$3,600,000, it was announced in Dallas, Texas, Aug. 19 by James J. Ling, Chairman of the Board of Ling-Altec.

Of the purchase price, \$3,250,000 was in cash, and the remainder consists of 10,000 shares of Ling-Altec common stock and \$125,000 in 5% notes.

5% notes.

All the shares of Continental stock were purchased from James O. Weldon, who will continue as president of the newly-acquired subsidiary, and from Lester H. Carr, who remains vice-president of Continental. Mr. Carr is president of Developmental Engineering Corp., Washington, D. C.

"Continental's acquisition will add approximately \$8,000,000 to our consolidated sales volume for the remainder of the current year," said Mr. Ling. "This will bring the parent company's sales to the \$34,000,000 range."

said Mr. Ling. "This will bring the parent company's sales to the \$34,000,000 range."

He added that 1960 sales of Continental may be in the \$25,000,000 range, pushing Ling-Altec's sales past \$60,000,000. Continental's backlog of orders is currently in excess of \$40,000,000, according to Mr. Ling, increasing the Ling-Altec group's backlog to more than \$57,-

Ling, increasing the Ling-Altec group's backlog to more than \$57,-000,000. Ling-Altec is a producer of high power vibration testing equipment used in the missile and air programs.

Facilities of Continental in Dallas include 58,000 square feet of manufacturing and office space, and the firm maintains temporary quarters at various sites of large installations under construction.

Production contracts from the U. S. Signal Corps, Air Force and Navy for defense projects are currently held by Continental. One contract calls for the development and production of a high powered radar transmitter for the Ballistic Missile Early Warning System.

Continental also holds the prime contract for the design and installation of the world's largest very low frequency radio transmitter facility, 2,000,000 watts, for the U. S. Navy, in Maine. This is designed to provide communications with submerged submarines throughout the entire Atlantic area. The antenna system alone covers about two square miles and there are 26 towers 800 to 1,000 feet tall.

Continental developed for the Signal Corps. a high frequency, single sideband transmitter that is currently undergoing operational tests. Similar units have also been ordered by the Navy.

A contract was awarded to Continental for a super power transmitter to be used in the Navy's moon relay systems, with terminals in Washington, D. C. and the Hawaiian Islands.

The new Ling-Altec subsidiary has also achieved breakthroughs in super power ionospheric and tropospheric scatter transmitters, as well as in microwave regions.

The largest super power transmitters in the world were built for Voice of America installations in the Philippines, Okinawa, Southern Germany and the United States by Continental. The one in Germany has a peak envelope power output of 4,000,000 watts. This is equivalent to 20 times the largest commercial radio transmitter in the United States. The firm currently has a contract for a new series of super power high frequency transmitters for the Voice of America.

The t

The tracking of the first Russian Sputnik was accomplished by a Continental transmitter used by the Radar Group of the Massachusetts Institute of Technology Lincoln Laboratory.

According to Mr. Ling, "The acquisition of Continental is part of the long range program of continually strengthening Ling-Altec's position in high-power electronics."

"The capabilities of Continental, and the addition of their engineering talents will expand our contribution to the rapidly developing sonar industry."—V. 190, p. 360.

#### Lionel Corp.—Reports Loss for Six Months—

The corporation and its subsidiaries reported consolidated net sales for the six months ended June 30, 1959 of \$2,232,202. Consolidated net loss before taxes equalled \$1,082,334. Consolidated net loss after tax credit amounted to \$555,334.

The consolidated figures for the corresponding period of 1958 reflected net sales of \$2,871,502. Consolidated net loss before taxes was \$640,023. Consolidated net loss after tax credit amounted to \$325,023.

Because of the highly seasonal nature of the company's business, the operations for the six months ended June 30, 1959 are not indicative of the results of operations for the entire year, the company's announcement said -- V 189 n 1795

#### Lockheed Aircraft Corp.—Forms Separate Aircraft and Missile-Electronics Groupings-

Rapid diversification of its billion-dollar-a year business led this corporation on Aug. 14 to form separate aircraft and missile-electronics combinations, each headed by a group Vice-President.

#### Long Mile Rubber Corp.—Registers With SEC-

This corporation, located at 6820 Forest Park Road, Dallas, filed a registration statement with the SEC on Aug. 18, 1959 covering \$1,500,000 of sinking fund subordinated debentures, due Sept. 1, 1974, with warrants for the purchase of 60,000 shares of common stock. The debentures (with warrants) are to be offered for public sale at 100% of the principal amount of the debentures. The interest rate and exercise price for the warrants, as well as the underwriting terms, are to be supplied by amendment.

The registration statement also covers 225,000 shares of outstanding common stock, to be offered for public sale by the present holders thereof. The public offering price and underwriting terms are to be supplied by amendment.

supplied by amendment.

The prospectus lists Scherck, Richter Co., Burnham & Co. and S. D. Lunt & Co. as the principal underwriters for both issues.

The company is the successor by merger, to be effective Sept. 11, 1959, of Rubber & Tire Materials Corp. with and into the RTM Corp., which as the surviving corporation is to change its name to Long Mile Rubber Corp. in order to identify it with the established trade name of its product. A predecessor corporation was formed in March 1953 to carry on the business of a prior partnership formed by W. R. Phillips and R. Cecil Murray in July 1949. Seven new corporations were organized principally to sell and distribute "Long Mile" tread rubber in various parts of the United States, and one new corporation was organized to manufacture fire repair materials. The Phillips and Murray families transferred all the outstanding stocks of the said nine corporations to Rubber & Tire Materials Corp.; and part of the consideration received by the Phillips and Murray families were purchase money obligations. Subsequently, the said predecessor was liquidated, Rubber & Tire Materials Corp. succeeding to its business and becoming the principal manufacturing corporation as well as the owner of the eight other wholly owned subsidiaries. A new wholly owner of the eight other wholly owned subsidiaries. A new

owner of the eight other wholly owned subsidiaries. A new wholly owned subsidiary recently was organized to acquire a new plant site at Spartansburg. S. C.

Of the proceeds of the sale of the debentures, \$700,000 is to be used to prepay a 5% note payable to a bank, representing the refinancing of \$200,000 previously borrowed from the bank for working capital and a commitment to lend an additional \$500,000 over a period of 120 days from July 21, 1959 (to be used for the purchase of the plant site and the construction of improvements and the purchase of equipment and machinery for the factory to be opened at Spartanourg). An additional \$700,000 is to be used to repay the \$700,000 of outstanding purchase money obligations. Any proceeds which the company may receive from the exercise of the stock purchase warrants are required to be used for the purchase and redemption of debentures.

purchase warrants are required to be used for the purchase and redemption of debentures.

The 625,000 outstanding shares of common stock are to be owned by 38 stockholders, including E. M. Black, Board Chairman, W. R. Phillips, President, and R. Cecil Murray, Vice-President. They will acquire their shares upon the merger of Rubber & Tire Materials Corp. into the RTM Corp., effective Sept. 11, 1959. The number of shares to be offered for sale by individual stockholders is to be supplied by amendment.

#### (P.) Lorillard Co.—New "Spring" Cigarette—

This company on Aug. 12 announced national marketing of its new "air-conditioned" king-sized filter cigarette, "SPRING." following field sales reports of "phenomenal success" of the new brand in Philadelphia, Pa., and Providence, R. I., where it made its debut only last month. The field reports indicated that in the initial markets "SPRING"

made "what is believed to be the fastest start ever seen for a new cigarette brand," the company stated.

Shipments of "SPRING" already are under way from Lorillard's Greensboro, N. C., plant, and completion of national distribution is scheduled for late this month.—V. 190, p. 360.

Magnetic Amplifiers, Inc.—Announces New Devices—
A new line of power control devices containing no moving parts of vacuum tubes, possessing virtually unlimited life, and offering a radical reduction in size and weight compared to conventional apparatus performing the same function was introduced in San Francisco by this corporation, at the Wescon Electronics Show.

Designated Universal Power Control Units, the new devices replace to a large extent conventional thyratron controls an delectromechanical equipment such as amplidynes and motor generator sets. The power units are approximately two-thirds smaller and weigh four-fifths less than present devices used for the same purpose. A typical Universal Power Control Unit measures 10x8x8 inches and weighs 5 lbs. Military applications for the power units are found in missiles, jet and conventional aircraft, ground support handling equipment, and radar tracking systems.

and radar tracking systems.

Also featured in the exhibit at the Wescon Show was the autopilot built by the firm for the Martin Mace missile.

A display of the company's line of solid state static investors was included in its presentation. In addition to their military uses, these devices have commercial applications as power sources for automated and industrial control equipment.—V. 190, p. 360.

#### Miami Copper Co.-Reports Sharply Increased Earns.

E. H. Westlake, President, on Aug. 17 reported that due to higher prices received for copper and a substantial increase in the number of pounds of metal delivered, the company's net income and sales in the six months and three months ended June 30, 1959 had shown substantial increases over the comparable 1958 periods.

In the latest six months net income was \$2,068,300, equal to \$2.81 per share of common stock outstanding, compared with \$95,400, or 13 cents a share, in the initial half of 1958.

13 cents a share, in the initial half of 1958.

Sales in the half year were \$13,931,500 as against \$8,372,500 in the six months to June 30, 1958.

In the most recent three months net income was \$1,031,200, or \$1.40 per share, compared with \$53,800, or seven cents a share in the June quarter last year. Sales totaled \$6,790,300 in this year's second quarter, compared with \$5,069,900 in 1958.

Mr. Westlake said that "copper shipments for the first six months of 1959 exceeded production and as a result, accumulated inventories have been further reduced. Lower production and deliveries are anticipated during the second half of the year because of the termination, at the end of June, of underground mining at the Miami Mine."—V. 189, p. 2459.

Recently NAFI announced FCC approval of the acquisition by NAFI of television station KPTV, Portland, Ore. The acquisition of KCOP, Mr. Bannister stated, is "another major move to develop extensive radio and TV holdings nationally." He added that it is another "key step in NAFI's definite plans to acquire the full complement of seven radio stations and five TV stations allowed by the FCC."—V. 190, p. 673.

#### National Cleveland Corp.—Registers With SEC-

National Cleveland Corp.—Registers With SEC—
This corporation, located at 11200 Madison Avenue, Cleveland, Ohio, filed a registration statement with the SEC on Aug. 18, 1959 covering \$600,006 of convertible subordinated debentures, due Sept. 1, 1971, to be offered for public sale through Loewi & Co. and Merrill, Turben & Co., Inc. The interest rate, public offering price and underwriting terms are to be supplied by amendment.

The company is presently operated in two divisions, one of which manufactures special metal-cutting tools and the other machines for the forming of products from thermoplastic sheets. A subsidiary manufactures machines to blow mold plastics. A portion of the net proceeds of the sale of the debentures will be used for the payment in full of \$400,000 of short-term bank loans, which loans were used principally to finance the inventory requirements and carrying of accounts receivable incident to the extension of the business into the field of manufacturing machines to form and mold plastics. The balance of the proceeds will be added to the general funds of the company for use as working capital as needed in the operation of the business.

#### National Steel Corp.—Awards Expansion Contracts—

National Steel Corp.—Awards Expansion Contracts—
This corporation has awarded additional contracts for major work at
two plant locations in its current \$300,000,000 expansion program, it
was announced Aug. 13 by William P. Hill, Vice-President Engineering.
The contracts are for slab reheating furnaces at Great Lakes Steel
Corp., National Steel's Detroit, Mich., subsidiary, and for foundation
work at Great Lakes Steel and at Midwest Steel Corp., National's new
steel finishing plant to be constructed in Portage, Ind., on Lake Michigan in the Chicago area.

Salem-Brosius, Inc., Pittsburgh, Pa., has been awarded a contract
for four five-zone slab reheating furnaces which will be the largest of
their type in the world. Rated at a combined productive capacity of
1,000 tons of 30-foot long slabs per hour, the furnaces will be used
for reheating slabs prior to rolling in Great Lakes' new 80-inch hot
strip mill. The mill will be the world's fastest and most powerful hot
strip mill and will have a rated capacity of 3,600,000 tons of steel coils
per year.

per year.

Eichleay Corp., of Pittsburgh, and the Walsh Construction Co. of Davenport, Iowa, have jointly been awarded the contracts for foundation work at Great Lakes Steel Corp. and Midwest Steel Corp.

At Midwest Steel the contract includes the following work: site preparation for all equipment and buildings, excayations and foundations, underground storm, sanitary and industrial waste sewers, drinking and service water lines, roads, railroad trackage, and flooring.

The contract at Great Lakes Steel is for all foundations, including piling, and other work required for the expansion of Great Lakes Steel facilities to accommodate the new 80-inch hot strip mill.

National Steel Corp.'s expansion program is scheduled for completion over the next three years. In addition to the 80-inch hot strip mill and the new finishing plant in Northern Indiana, which will produce hot and cold sheets and strip, galvanized steel and tin plate, the program includes construction of oxygen plants at both Great Lakes Steel and Weirton Steel Co.; the addition of 500,000 annual tons of ingot capacity at Great Lakes Steel, and improvements and additions to tin plate and cold rolled sheet facilities at Weirton Steel.—V. 190, p. 567.

#### Neff Instrument Corp., Pasadena, Calif.-Wins Patent Decision-

Decision—

The U. S. Court of Appeals for the Ninth Circuit has announced a decision in favor of this corporation, in its suit against Cohu Electronics, Inc., of San Diego, Calif., and Neely Enterprises, of Los Angeles, Calif., for patent infringement. The Court of Appeals reversed the lower court and remanded the case for trial on the merits of the Neff Instrument Corp.'s claim that Cohu amplifiers are an infringement of U. S. Patent No. 2,832,848 owned by Neff.

In the Court's Opinion, Judge Stanley F. Barnes reaffirmed the rule that the owner of a patent has the exclusive right, not only to prevent use by another of his invention, but likewise the making or the selling of the article. Neff seeks an injunction prohibiting infringing activity by Cohu, an accounting and damages.

fringing activity by Cohu, an accounting and damages.

#### Niagara Mohawk Power Corp.—Calls Debentures—

Earle J. Machold, President, on Aug. 19 announced that the company has authorized the call for redemption of \$15,000,000 principal amount of its outstanding 4%% convertible debentures due Feb. 1, 1972 on Oct. 1, 1959. The debentures, to be drawn by lot, will be redeemed at 104.28% of the principal amount plus accrued interest to Oct. 1. On Aug. 14, a total of \$40,471,200 principal amount of the issue was outstanding. outstanding.

The debentures were originally issued in 1957 in the amount of \$46,224,200. Reduction of the amount of debentures originally issued reflects conversions into common stock.

Mr. Machold emphasized that the depentures called for redemption are convertible into common stock of the company at any time up to the close of business on Oct. 1, the date fixed for redemption, at \$31.75 per share, after which date the conversion rights on the called debentures will terminate. Common stock issued upon conversion on or before Sept. 15, 1959 will be entitled to receive the Sept. 30, 1959 quarterly dividend of 45c per share.

Mr. Machold said that with the present market value of the com-

pany's common stock above the conversion price it currently is to the advantage of debenture holders to convert their called debentures rather than to present them for redemption at the call price of

104.28%, plus accrued interest.

The debentures may be converted into common stock upon presentation to The First National City Bank of New York, trustee, 2 Broadway, New York, N. Y.—V. 189, p. 1797.

#### Pacific Northern Airlines, Inc.—New Records—

This corporation established new all-time July traffic records, it was announced on Aug. 19 by Harold A. Olsen, Vice-President of traffic

A total of 17,245 passengers were carried a total of 14,884,000 passenger-miles, an increase of 6% over the same month last year for an all-time July high. July figures surpassed those of June for the first time in history; June, 1959, incidentally also was a record month. Air cargo and express increased 7% over July, 1958 for a total of 336,935 ton-miles, while air mail increased 10.7% for a total of 110.333 ton-miles. 110,333 ton-miles.

Total ton-miles flown were 2,056,027, an increase of 6.6%, while the revenue ton-mile load factor was 70.5%. Revenue miles flown were the same as last year.—V. 138, p. 2733.

#### Packard-Bell Electronics Corp.—Unit Gets Contract—

Packard-Bell Computer Corp., a subsidiary, has received a contract from the Army Ballistic Missile Agency for the development of an operational digital simulation system capable of speeds up to 100,000 iterations per second, it was ernounced on Aug. 19 by Max Palevsky, Vice-President in charge of the unit.

Mr. Palevsky said the solid state computer system will be delivered to the Armyragency's computation laboratory at Redstone Arsenal, Huntsville, Ala., for use in the handling of dynamic missile flight problems.

An experimental version of the system, known as Trice for transistorized, realtime incremental computer, expandable, was developed by Packard-Bell under a previous contract and has been in operation at Redstone for more than a year, Mr. Palevsky said. It is described as combining the speed of analog computers with the accuracy of digital systems.—V. 189, p. 2460.

#### Pan American World Airways, Inc.—Awards Contract

This corporation has awarded a contract for approximately \$2,800,-000 to Lockheed Aircraft Service, Inc. for conversion of 10 DC-7C's to cargo aircraft with an option for conversion of an additional 10 aircraft of the same type. aircraft of the same type.

The conversion program, to be carried out at Lockheed's base at

Ontario, Calif., is scheduled to start in September, 1959.

A DC-7C Cargo Clipper will carry 16 tons on a transatlantic flight or almost five tons more than a DC-6A, the cargo aircraft currently in use on the route. The DC-7C's will have usable cargo space of 5,253 cubic feet. The DC-7C's will cruise at 300 miles per hour compared to 250 miles per hour for a DC-6A. The DC-7C's are capable of nonstop eastbound transatlantic flight. The DC-6A makes a final stop on the same flight. stop on the same flight.

Pan American has recently announced an order for 12 special long-range Lockheed 207 propjet air freighters at a cost of \$60,000,000 for delivery in 1962.—V. 190, pp. 674 and 463.

#### Peabody Coal Co .- Proposed Acquisitions-

Peabody Coal Co.—Proposed Acquisitions—

Merl C. Kelce, President, on Aug. 17 announced that agreements have been entered into under which Peabody will acquire the stock of Sunnyhill Coal Co. and Sunnyhill Coal Sales Co. The agreements will involve the exchange of 257,925 shares of Peabody common stock for all the stock of both the Sunnyhill companies.

It is expected that the transaction will be formally consummated within the next 30 days upon the listing on the New York Stock Exchange and Mid-West Stock Exchange of the Peabody shares to be issued to the Sunnyhill shareholders.

Sunnyhill Coal Co. owns and operates its Mine No. 8 near New Lexington, Perry County, Ohio. This is a large modern mine producing approximately 1,500,000 tons of coal annually by the strip mining method, utilizing large-scale modern equipment including a late model giant 65-yard stripping shovel purchased in 1958. In addition, the company owns and operates the Glen Ebon preparation plant which processes approximately 325,000 tons annually of coal produced by independent stripping contractors on land leased from

Sunnyhill Coal Sales Co. The entire output of this plant is delivered to a nearby electric utility company.

Sunnyhill Coal Sales Co. markets the entire output of Mine No. 8 and the Olen Ebon plant. The major market outlets for this coal are well established with industrial users in Northwestern Ohio, Eastern Michigan, and other areas east of those served by Peabody from its present operations.

Mr. Kelce emphasized that the acquisition of these Ohio properties

CAPITALIZATION-Capitalization of the company on a consolidated capitalization—capitalization of the company on a consolidated basis at June 30, 1959, adjusted to give effect to the sale of the debentures includes: five series of sinking fund debentures totaling \$7,200,000; \$2,600,000 of sinking fund subordinated debentures in three series; \$1,045,000 of 12-year sinking fund capital debentures; \$1,000,000 of debentures now offered; 37,310 shares of \$10 par 6% cumulative preferred stock; 10,000 shares of \$100 par 6% cumulative preferred stock; and 907,271 shares of common stock.—V. 190, p. 264.

Polycast Corp.—Common Stock Offered—Lee Co. of New York City on Aug. 14 publicly offered 99,000 shares of common stock (par \$2.50) at \$3 per share. The offering was quickly oversubscribed and the books closed.

USE OF PROCEEDS-Net proceeds to the company from the offeror PROCEEDS—Net proceeds to the company from the offering being made, after payment of expenses (estimated at \$15,000) will be \$237,450. It is the intention of the company to use approximately \$10,450 for modification of its present buildings in order to secure lower fire insurance rates. The balance of \$227,000 will be initially added to working capital and used to finance shipments and raw material inventories. These have previously to a large extent been financed by borrowings from factors, banks and raw material suppliers. As of July 15, 1959 the company had placed receivables with a factor in order to secure a learn of \$77,600. It is the intention been financed by borrowings from factors, banks and raw material suppliers. As of July 15, 1959 the company had placed receivables with a factor in order to secure a loan of \$77,690. It is the intention of the company as such loan is reduced through payment of receivables not to renew the same. As unsecured notes held by a bank totalling \$9,493 on May 31, 1959, mature, such notes will be paid. Interest and bank charges during 1958 totalled \$26,268. It is anticipated that such expenses may be reduced in the future as proceeds from the financing are applied to the company's working capital. As of Aug. 10, 1959 the company was indebted to The Connecticut Development Credit Corp., under a loan agreement, in the sum of \$27,183.35, which is being reduced by weekly payments of \$200. The purchase by the company of certain machinery and an increase in officers' salaries subsequent to the execution of the loan agreement, may have caused a technical default under the terms of such agreement, and The Connecticut Development Credit Corp., might require immediate repayment in full of the unpaid balance. If this occurs \$27,183.35 of the proceeds will be used for such purpose.

#### Pomona Tile Manufacturing Co.—Sales Soar-

Sales in the first half of 1959 boomed to the highest level ever reached for a comparable period, according to Drew Schroeder, President, in his report just distributed to shareholders.

dent, in his report just distributed to shareholders.

From January through June, 1959, sales hit \$4,170,846, a 19% increase over the \$3,506,358 sales reported for the like period of 1958. The increase is especially significant since Pomona Tile sales in 1958 were the second highest in the company's history. Mr. Schroeder has attributed an important part of this 1959 gain to increasing demand for high quality building products.

Earnings on the 550,000 common shares outstanding amounted to 51 cents per share, compared with 39 cents per share on the same number of outstanding shares for the first six months of 1958, an increase effected primarily by the sales increase. Mr. Schroeder pointed out that two quarterly dividends of 15 cents each were paid to shareholders during the first six months of 1959.

Shareholders equities were increased by \$117,630 during the six month period, and, Mr. Schoeder said, the company's financial condition continued sound with \$3,498,166 current assets against \$1,130,027 current liabilities. The ratio of current assets to current liabilities

#### Reynolds Metals Co.—Converts Household Foil Line-This company has converted its entire household foil line to a

stronger high-purity aluminum alloy.

David P. Reynolds, Executive Vice-President, said on July 21 that the new foil will be marketed in all weights and seven sizes of the company's aluminum foil Reynolds Wrap. All of the company's foil plants have been ordered to convert immediately to production of this stronger foil. There will be no changes in the Reynolds Wrap package. The new foil will increase the strength of Reynolds Wrap by more than 50%, Mr. Reynolds said, and will be sold at the same price as present foil.

Reynolds Metals, which pioneered the development of aluminum foil wrap, continues to lead the industry in volume of sales, he said, with 1959 sales running well ahead of the same 1958 period.—V. 190, p. 265.

#### Robinson Technical Products Inc. — Acquires High Vacuum Equipment Corp.

In a joint statement today, C. S. Robinson, President of Robinson Technical Products Inc., Teterboro, N. J., and Joseph B. Merrill, President of High Vacuum Equipment Corp., Hingham, Mass., announced that Robinson has acquired all of the outstanding shares of High Vacuum through an exchange for shares of Robinson Technical Products Inc.

Products Inc.

This merger joins two companies which have been active for a number of years in furnishing specialized equipment used extensively in the aircraft, guided missile, electronics and commercial fields.

High Vacuum Equipment Corp. will be operated as a wholly-owned subsidiary of Robinson Technical Products Inc., and all of its assets will be retained. The management of High Vacuum will continue and it is contemplated that two of its directors, Joseph B. Merrill, President, and Gerhard D. Bleicken, Director and Vice-President and Secretary of John Hancock Mutual Life Insurance Co., will become directors of Robinson. of Robinson

tors of Robinson.

Robinson has recently received contracts from Westinghouse Electric, Collins Radio, National Corporation and others for newly developed Met-L-Flex mountings to be used in surface vessels and submarines. These mountings, supporting electronic equipment weighing up to 800 lbs., meet the Navy's new low frequency requirements for such usage. This opens up an important new field for Robinson.

Development work is being carried on with Arco and the Signal Corps to improve electronic gear reliability in tanks and other ground vehicles through the application of more effective mountings. The company has recently received contracts from Aerojet-General in connection with the Polaris program as the result of special research by Robinson in areas not wholly related to vibration and shock. North American Aviation's X-15, 4,000 m.p.h stratosphere airplane carries more than 25 Robinson Met-L-Flex mounting systems developed exclusively for this project.—V. 189, p. 2396.

# THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Aug. 22, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 10.4% above those of the corresponding week last year. Our preliminary totals stand at \$24,435,378,077 against \$22,127,822,299 for the same week in 1958, at this center there is a gain for the week ending Friday of 9.7%. Our comparative summary for the week follows:

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended Aug. 15. For that week there was an increase of 6.0%, the aggregate clearings for the whole country having amounted to \$23,429,332,039 against \$22,111,683,517 in the same week in 1958. Outside of this city there was a gain of 9.6%, the bank clearings at this center showing an increase of 2.2%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals show an improvement of 2.2%, in the Boston Reserve District of 10.0% and in the Philadelphia Reserve District of 5.9%. In the Cleveland Reserve District the totals are larger by 10.4%, in the Richmond Reserve District by 7.1% and in the Atlanta Reserve District by 13.9%. The Chicago Reserve District has to its credit a gain of 16.5%, the St. Louis Reserve District of 9.5% and the Minneapolis Reserve District of 8.0%. In the Kansas City Reserve District the totals record an increase of 2.9%, in the Dallas Reserve District of 5.8% and in the San Francisco Reserve District of 6.2%.

In the following we furnish a summary by Federal Reserve Districts:

(I.) Rokeach & Sons, Inc.—Acquisition—

(I.) Rokeach & Sons, Inc.—Acquisition—
This corporation has acquired the Eastern Foam Fabric Co., Inc., manufacturers of foam rubber products for apparel industry for about \$425,000, Benjamin C. Wheeler, President, announced on Aug. 13.
Included in the purchase were the real estate, plant and manufacturing equipment of Eastern Foam, located on the waterfront adjacent to railroad lines, at Oceanside, N. Y., and all special devices owned by the company. It will now be operated as a wholly-owned subsidiary of I. Rokeach & Sons.

Mr. Wheeler soid that Eastern, which specialized in foam rubber products for the brassiere industry, has now developed, in conjunction with the Kendall Co. and with Allen Industries, a new line of products which will be marketed shortly in the shoe, automotive, and home furnishings industries. He said the existing plant, erected only four years ago, can handle several times the current volume of manufacturing.—V. 139, p. 2724.

#### Ryan Aeronautical Co.—Air Force Contract-

An Air Force contract to study the applictaion of ultra-thin gauge, high strength materials to a vehicle capable of operating at extremely high altitudes, has been awarded this company, it was announced on July 21

on July 21.

Details of the vehicle's configuration or mission were not disclosed, although it was reported that it is designed to operate at extreme altitudes to determine environmental conditions affecting the functioning of unique propulsive devices.

Ryan has been assigned the task of determining the feasibility of producing a structure that will be adaptable to this type of vehicle. Basic design concept in achieving the great strength required from microgauge materials will be Ryan's own development, MiniWate, an ingenious spotwelded combination of corrugated and flat skins of high temperature-resistant alloys.

The vehicle research contract was awarded Ryan by the Fluid Dynamics Branch of the Air Force's Aeronautical Research Laboratory, Wright Air Development Center, Wright-Patterson Air Force Base, Ohio.

#### Builds Nuclear Engine Parts-

Construction by this company of huge scroils for the General Electric X-39 test engine—the nation's first jet engine tested in nuclear power experiments—was disclosed on Aug. 20. The scroils are stainless steel spiraling ducts, nearly five feet high and more than four feet wide, in which heat from the reactor is collected and pushed through the jet engine. The X-39, which has been tested with a nuclear reactor at the Atomic Energy Commission's site at Idaho Falls, Idaho, uses two of the Ryan-built scroils—one to deliver the compressor air to the heat exchanger reactor, and the other to send the air back into the turbine. Use of the scroils in the test bed experiments has brought closer the development of nuclear planes that can remain in the air for days at a time on constant patrol in all parts of the world, with one pound of Uranium 235 supplying the same amount of energy as burning 1,700,000 pounds of gasoline, according to General Electric and Ryan officials.—V. 190, p. 464.

#### St. Regis Paper Co.—Registers Exchange Offer With Securities and Exchange Commission-

Securities and Exchange Commission—

This company filed a registration statement with the SEC on Aug. 12, 1959, covering 453,731 shares of its common stock. The company proposes to offer this stock in exchange for outstanding shares of the capital stock of Cornell Paperboard Products Co. (of Cornell and Milwaukee, Wisc.), on the basis of 68/100s (.68) of a share of St. Regis common for each share of Cornell capital stock.

The exchange offer will be declared effective by St. Regis if 90% of the outstanding shares of Cornell stock are deposited for exchange, and may be declared effective if a lesser percent, but not less than 80%, of Cornell shares are so deposited. In the event the offer of exchange is declared effective, St. Regis intends to cause appropriate proceedings to be taken for the dissolution and liquidation or merger of Cornell with and into St. Regis.

St. Regis holds written options from 21 holders (including the only four persons who hold more than 5% of the outstanding shares) of a total of 341,957 shares of Cornell stock, or approximately 51%, providing for their exchange of Cornell stock for St. Regis stock on the same basis of exchange as is proposed in respect of other stockholders.—Cornell operates two paperboard mills, one at Cornell, Wis., and one at Milwaukee, Wis. The Milwaukee mill also converts paperboard into corrugated and solid fibre shipping containers and folding cartons.—Cornell has three principal wholly-owned subsidiaries: Carton Craftsmen, Inc.; Superior Paper Products Co., Inc.; and Rathborne, Hair and Ridgway Box Co.

Carton Craftsmen manufactures folding cartons in the Chicago area.

men. Inc.: Superior Paper Products Co., Inc.; and Rathborne, Haif and Ridgway Box Co.
Carton Craftsmen manufactures folding cartons in the Chicago area. Superior operates two plants at Marion, Ind., for the manufacture of pressed paper plates. Rathborne manufactures corrugated fibre shipping containers in Chicago and wood veneer wire bound boxes in Jackson, Miss.; Savannah, Ga.; and Maringouin, La. Cornell owns a total of 52,036 acres of timberlands in Wisconsin.
Cornell is one of four corporations that will participate in the ownership of Tennessee River Pulp & Paper Co., which is presently constructing a containerboard mill at Counce, Tenn., scheduled for completion in 1961.

#### St. Stephen Nickel Mines Ltd .- Postal Fraud Order Issued Against Sale of Stock-

Issued Against Sale of Stock—
The SEC on Aug. 19 announced that the U. S. Post Office, on application of the Commission, has issued a foreign fraud order against Canam Investments Ltd. of Saint John, New Brunswick, Canada, in connection with Canam's effering and sale of St. Stephen Nickel Mines Ltd. stock to residents of this country. The fraud order was based upon evidence supplied by the Commission that the stock was being offered for sale by means of false and fraudulent representations concerning the market price of the stock, its future value, and related matter. The order is directed to all postmasters authorized to dispatch mail to Canada, and instructs them to stamp "Fraudulent" on all letters addressed to either of the two companies and to return same to sender.—V. 186, p. 2053. to sender .- V. 186, p. 2053.

Schering Corp.—New Antibiotic Is Announced—

The corporation on July 16 announced its entry into the antibiotics field with the introduction of a new antifungal antibiotic which in clinical tests has proved highly effective in treating superficial fungus

clinical tests has proved highly effective in treating superficial fungus infections in human beings.

Known as Fulvicin, the new antibiotic is currently available to the medical profession and may be obtained by the general public only on the prescription of a physician. According to clinical physicians, it is the first drug which, when taken orally, will almost consistently eliminate bothersome fungus infections of the skin, hair and nails. Among the more popular names for some fungus infections of this type are "athlete's feet" and "barber's itch."

The chemical name of the new compound is griseofulvin, which was discovered by a prominent British pharmaceutical company and is being clinically developed and marketed in this country by this corporation. Under clinical studies, many fungus infections of extremely long duration were cleared up after treatment with the compound.

poration. Under clinical studies, many fungus infections of extremely long duration were cleared up after treatment with the compound. In one independent clinical study it was given to a 67-year-old woman who had suffered from ringworm of the scalp since she was seven years old. After three weeks of therapy with griseofulvin, she was free of the constant itching for the first time since early childhood, and subsequently the infection cleared completely and new had grew in the affected area. Ringworm of the scalp is frequently associated with the development of baid spots in the affected areas. The new antibiotic does not prompt the growth of hair, but simply eliminates the infection and allows for the normal development of bair growth.

The company recently began production in its new microbiological pilot plant and development laboratories which have provided the corporation with needed production facilities for antibiotics manufacturing.—V. 189, p. 2724.

Schlegel Manufacturing Co.—New Literature Available

A new bulletin has recently been published by this company, describing the firm's two new rolled formed and extruded aluminum door sweeps. The new door bottoms, which utilize woven pile weather-stripping, can be affixed to any metal or wooden door.

The bulletin, designated DB-100 listed specifications and prices for both the rolled formed and the extruded units.—V. 186, p. 323.

# Security Title Insurance Co.—Proposed Merger—

The directors of this company and of Land Title Insurance Co. have approved preliminary terms of a merger, according to William Breliant and F. D. Rose, Chairmen of the Boards of the respective companies.

approved preliminary terms of a merger, according to William Breliant and F. D. Rose, Chairmen of the Boards of the respective companies. Under the terms of the proposed merger, yet to be formalized, the holder of each share of Land Title stock would receive either 1% shares of Security Title stock issued after a pending 3-for-1 stock split, or \$29.17 cash for a limited number of shares. The 39.8% of Land Title shares now owned by Security Title would be cancelled pursuant to the merger.

Recently Security Title authorized a 3-for-1 split effective Aug. 19, 1959, payable Sept. 3, 1959 and Land Title declared a 20% stock dividend to shareholders of record Aug. 5, 1959, payable Aug. 20, 1959. The proposed merger terms are based on the new shares fo both companies as they will exist after the stock split and stock dividend. The two companies have combined assets of approximately \$19,000,-000. Security Title has branch offices in 16 counties in California and underwrites other companies in ten additional counties. The principal operations of Land Title are in Los Angeles and San Diego Counties, and it has subsidiaries and affiliates in eight other counties. Security Title Insurance Co. is the second largest title insurance company in California and the fourth largest in the United States. Land Title Insurance Co. is the third largest title insurance company in California.—V. 190, p. 402.

Servo Corp. of America-Private Placement-This corporation on Aug. 17 consummated a 15-year unsecured loan of \$1,000,000 with The Mutual Life Insurance Co. of New York, it was announced by Henry Blackstone, President.

The proceeds will be used for additional working capital and new equipment.

The signing on Aug. 17 was concurrent with the opening of Servo's new 133,000 square foot plant in Hicksville, Long Island, N. Y.

"The company's program for achieving a sound balance between military and proprietary product business has been completed," said Mr. Blackstone. "The product ratio at present is 65% commercial and 35% military contract sales."

Servo's backlog of orders as of June 30, 1959, was \$6,226,000 compared to \$4,896,000 as of Dec. 31, 1958.—V. 190, p. 717.

Sheraton Corp. of America—Sells \$21,300,000 of Debs. The corporation has withdrawn its eight-month-old offering of 71/2% capital income sinking fund debentures after band offering of 71/2% capital income sinking fund debentures after having sold \$21,300,000 of the \$25,000,000 issue, according to an announcement on Aug. 13.

Ernest Henderson, President, said an amendment to the indenture has been filed with the Securities and Exchange Commission terminating public offering of the nonconvertible debentures, which were dated Jan. 1 of this year. Due date is Jan. 1, 1989.

Henderson, citing the "exceedingly gratifying response" to the sub-ordinated offering, which was managed on a best-efforts basis by Paine, Webber, Jackson & Curtis and S. D. Lunt & Co., said the \$21,-300,000 had "helped support certain key expansion moves" by the 53-hotel organization.

Last Spring Sheraton purchased four large hotels in Honolulu, Hawaii, and several weeks ago acquired the 500-room St. Charles Hotel New Orleans, now the Sheraton-Charles.—V. 190, p. 608.

Sire Plan Post Office Plan, Inc.—Securities Offered-Sire Plan Portfolios, Inc., of New York City, on Aug. 5 publicly offered to residents of New York State 3,000 10-year 6% debentures in multiples of \$50, to raise the sum of \$150,000 and 3,000 shares of \$3 cumulative, noncallable, participating preferred stock (par \$5) offered in units, each consisting of one \$50 debenture and one share of preferred stock at a price of \$100 per share. The minimum sales purchase is a minimum of 5 units.

PROCEEDS—The net proceeds will be used for the purpose of financing the acquisition of title to the three-story post office building situated at 103-07 Prince St., New York City, N. Y.

Speer Carbon Co.—To Acquire Electronics Division—
This company, is purchasing the Electronics Division of Onondaga
Pottery Co., Syracuse, N. Y., according to a joint announcement by
Foster T. Rhodes, President of Onondaga Pottery Co., and Andrew
Kaul III, President of Speer Carbon Co. It is expected that the acquisition will be consummated on Aug. 23, 1959.

The business will be carried on under the name of Onondaga Electronics Division, Speer Carbon Co., at its present Syracuse location.
Onondaga Electronics is one of the three leading producers of ceramic
printed circuit packages consisting of resistors and capacitors printed
on ceramic plates. These products find wide application in the television, radio, industrial, military and specialty electronics fields.
This acquisition will supplement Speer's present activities in the
electronics field in which it is a leading producer of fixed composition
resistors at its Resistor Division plant in Bradford, Pa., and of molded
inductors, miniature composition capacitors and Speer PAC (Packaged
Assembly Circuits) at its Jeffers Electronics Division facilities in

# Sperry & Hutchinson Co.-Favored by Court-

The Appellate Division of the Superior Court of the State of New

The Appellate Division of the Superior Court of the State of New Jersey on July 20 handed down a unanimous opinion favoring the company in the matter of escheating trading stamps.

This decision by the Superior Court affirms the judgment of a lower court held against the State of New Jersey in an action brought to compel the trading stamp company to pay to the Treasurer of the State of New Jersey a sum of money equaling the value of all stamps issued from 1900 to 1950 which were not redeemed.

William S. Beinecke, Vice-President and General Counsel, expressed his company's gratification at the outcome of an action which has though through New Jersey's courts over the past 4½ years.

He said: "This decision by a high court in New Jersey should settle once and for all the question of possible escheat in the field of trading stamp enterprise.

"Frankly, from our point of view, we viewed the suit as harrassing in purpose and at no time had any serious doubts as to the outcome."

The suit was first introduced through representations by James B. Carpenter and Elmer J. Bennett, senior members of the firm of Carpenter, Bennett, Beggans and Morrissey. Mr. Carpenter acted as escheat agent.

The company was represented by the New Jersey law firm of Pitney, Hardin and Ward. Donald B. Kipp appeared as Counsel for the company. Elmer J. Bennett argued the case for the state.—V. 187,

Stadacona Mines (1944) Limited proposes to devote its residual liquid assets to the search for and development of new ore possibilities in some of the more promising mineral areas of Canada or elsewhere, Roy Robertson, President, states in the annual report for the

Balance sheet as at Dec. 31, 1958 indicates working capital of \$250,138, exclusive of marketable investments carried at \$75,500 (market value \$87,700) and other investments at residual cost of \$5,003.

The Stadacona gold mine was closed down in the middle of 1958 and the company decided it would be preferable to dispose of the mine assets on a reconditioned basis rather than sell them at auction or on a haphazard basis. All underground equipment has been removed and all surface openings have been capped. Most of the removed equipment has been or will shortly be reconditioned and readied for sale while dismantling of surface equipment is presently underway.

# Standard Oil Co. of California-Unit to Build Chemical

Plans for construction of the West's first plant for the manufacture of the chemical maleic anhydride were announced on Aug. 17 Fred Powell, President of California Chemical Co., a subsidiary.

The multi-million dollar unit will have a capacity of 20,000,000 pounds of the chemical annually, Mr. Powell disclosed. It will be built at Standard's refinery at Richmond, Calif., and is scheduled for completion by mid-1960.

Marketing of the plant's output will be carried on by California Chemical's industrial chemical subsidiary, Oronite Chemical Co.

While part of the new plant's production will be processed into other chemicals sold by Oronite and by California Spray-Chemical Corp., another Standard subsidiary, the capacity of the unit will be sufficient to serve fully requirements of Oronite customers throughout the West and east of the Mississippi, Mr. Powell said.

Feed stock for the new plant will be benzene, which the company now produces in quantity.

Maleic anhydride is a chemical intermediate widely employed in production of plastics for boats, auto bodies and household appliances; high-grade paints; textile wetting agents, and agricultural chemicals.

Oronite, which operates in the field of industrial chemicals, is both of which are used for similar purposes as maleic anhydride. California Spray is one of the country's leading manufacturers and marketers of agricultural chemicals.—V. 189, p. 2937.

# Standard Pressed Steel Co.-Acquisition-

It was announced on Aug. 20 that all of the stock of International Electronics Industries, Inc. will be exchanged for 30,046 SPS shares.

IEI pioneered and is now the largest producer of miniature electrolytic capacitors. They are well-known in the industrial and commercial electronics field as suppliers of capacitors for computers, scientific instruments, transistorized radio and TV, hearing aids and other advanced electronic applications. #### Stelling Development Corp. - Stock Offering Suspended by Securities and Exchange Commission-

The SEC has issued an order temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a proposed offering of securities by Stelling Development Corp. of 305 Morgan Street, Tampa, Fla., which was organized for the purpose of engaging in the building of small homes for resale on a tract of land owned by it in Florida.

Regulation A provides a conditional exemption from registration under the Securities Act with respect to public offerings of securities not exceeding \$300,000 in amount. In a notification filed June 3, 1959, Stelling Development proposed the public offering of 300,000 common shares at \$1 per share. The Commission's suspension order asserts that a Regulation A exemption is not available for specified reasons and that the terms and conditions of Regulation A have not been complied with. The order provides an opportunity for hearing, upon request, on the question whether the suspension should be vacated or made permanent.

More particularly, the order states that a Regulation A exemption is not available to Stelling Development because (1) Earl Pelletier, also known as Joseph E. H. Pelletier and Joseph Earl Pelletier, a promoter and principal stockholder of the company, was permanently enjoined on June 18, 1953, by the Supreme Court, New York County, N. Y. from on June 18, 1953, by the Supreme Court, New York County, N. Y., from engaging in the sale of securities within that State (which operates to disqualify the company under Regulation A); (2) that The Stanford Corporation, the underwriter for the proposed stock offering, was underwriter for a Regulation A offering by another issuer which was suspended by the Commission, which is a bar to a Regulation A exemption for any offering for which Stanford is an underwriter; and (3) the amount of the proposed stock offering plus the securities subject to the escrow provisions of the Regulation, exceeds the \$300,000 limitation for Regulation A offerings.

for Regulation A offerings.

Furthermore, according to the order, the terms and conditions of Regulation A have not been complied with in that (a) the notification fails to disclose that Earl Pelletier, a promoter, is subject to a permanent injunction of the nature indicated above; (b) the notification fails to disclose the total number of unregistered shares sold by Stelling Development's two promoters within one year prior to the filing of the notification, the aggregate offering price or other consideration received, and the names of all persons to whom such sales were made; (3) the company failed to sign an amendment to the notification filed to, filed as an exhibit, fails to comply with the requirements of the applicable rule.—V. 189, p. 2937.

#### Suburban Propane Gas Corp.—Expands Service—

Mark Anton, President, on July 23 announced the extension of Suburban Propane Gas Service into Long Island, through the acquisition of the LP-Gas (bottled gas) business of the Lewis Oil Co. at Shirley and Kings Park, New York. Mr. Anton explained that his company has for the past five years delivered LP-Gas to the Island from its Mount Kisco, New York plant, but it was primarily for industrial and marine uses. Harvey W. Lewis, a member of the board of directors of the Empire State Petroleum Association, Inc., is President of Lewis Oil Co. Lewis, which has been a fuel oil distributor for a number of years, has distributed LP-Gas for only about three years. Indications seem to be that the distribution of these two products is not kindred, one of the more important factors being the large investment required for LP-Gas storage equipment at each customer's home which is not the

## Sun Chemical Corp.—Acquisition—

As part of its expansion program, this corporation has purchased for cash all of the stock of Pennsylvania Color & Chemical Co., Inc., of Doylestomn, Pa., a leading manufacturer of pigment dispersions, Norman E. Alexander, President announced on Aug. 16. The amount paid

was not disclosed.

Pennsylvania Color, with sales in excess of \$1,000,000 annually, is one of the leading manufacturers of pigments dispersed in solid form and in various vehicles which are used extensively in the manufacture of inks for fine color printing, industrial coatings, plastics, cosmetics and numerous other applications.

It will be operated as one of Sun's autonomous divisions and becomes part of Sun's Chemical Group, which includes Ansbacher-Siegle, a leading manufacturer of dry pigments, Warwick Chemical, producer of textile resins, and Electro Technical Products, which makes insulations, special coatings and plastics. Sun is also a manufacturer of printing inks, paints and finishes.

## Division Building New Plant-

General Printing Ink Co., a division of the Sun Chemical Corp., has broken ground for a new ink plant on a 3-acre site on Glendale Milford Road in Cincinnati, Ohio, according to John S. Thome, Vice-President in charge of the parent organization's Graphic Arts Group. Completion of the plant is expected by Nov. 1.2. The new plant will offer a complete line of letterpress, lithographic flexographic and rotogravure inks produced with the most modern and efficient facilities known," Mr. Thome said. "In addition, a trained laboratory and technical service staff will be available to assure the ink user of the most efficient service available in the graphic arts field."

He added that all the products of Sun's Graphic Arts Group would be available from the new plant. These include, in addition to a full range of printing inks, a complete line of litho supplies for plates and pressroom.—V. 189, p. 2937.

#### Sunrise Supermarkets Corp.—Requests Exemption—

Sunrise Supermarkets Corp.—Requests Exemption—
This corporation, located in East Rockaway, Long Island, N. Y., has made application to the Securities and Exchange Commission, pursuant to its Rule 15d-20 under the Securities Exchange Act of 1934, for an exemption from the requirement to file annual and other periodic reports; and the Commission has issued an order giving interested persons until Aug. 21, 1959, to request a hearing upon the application.

Sunrise Supermarkets made an undertaking to file periodic reports in connection with its filling of a registration statement under the Securities Act of 1933 in 1952 which proposed the public offering of securities. In support of the requested exemption, it states that all of its outstanding securities are owned of record and the number of holders thereof does not exceed 50 persons, and that Grand Union Co., has acquired 99.4% of the outstanding common shares pursuant to an exchange offer.—V. 189, p. 1176.

#### Tex-Star Oil & Gas Corp.—Registers Debentures With Securities and Exchange Commission—

This company, with offices in the Meadows Building, Dallas, Texas, filed a registration statement with the SEC on Aug. 12, 1959, covering \$1,000,000 of 6% convertible debentures due Sept. 1, 1974, to be offered for public sale by Stroud & Co., Inc., and Auchincloss, Parker & Redpath. The debentures are to be offered for sale at 100% of principal amount; and the underwriters are to receive a commission of 8%.

The company was organized in 1955 and is engaged in the business of exploration for and production of oil and gas. It also owns an interest in a gas gathering system and natural gasoline plant and incident to its exploration activities the company undertakes drilling ventures.

Net proceeds of the sale of the debentures are to be applied to the credit of funds available for general corporate purposes including the development of proven and unproven oil and gas acreage under lease, chiefly in the Central Gulf Coast area of Texas and the acquisition of producing oil and gas properties and small oil and gas companies and activities incidental thereto. The company management estimates that it will spend about \$250,000 during the next 12 months in drilling, complexes being placed on the development of additional gas reserves. emphasis being placed on the development of additional gas reserves suitably located to supply new gas lines which it is expected will tap this area, according to the prospectus.—V. 186, p. 2802.

#### (August) Thyssen-Huette (Germany)—Fires Europe's Largest Blast Furnace-

The largest and most modern blast furnace within the European Coal and Steel Community has just been placed into operation by this company in the German Ruhr Valley. The new blast furnace, number eight for Thyssen-Huette, has a capacity of 1,500 to 2,000 metric tons daily and will appreciably increase the company's production of pig iron, which in 1958 amounted to 1,643,000 metric tons. The introduction of a blast furnace of this size marks a new approach for Thyssen-Huette and the German steel industry since

daily blast furnace capacity has customarily been below 1,000 metric

With its eight blast furnaces Thyssen-Huette's annual pig iron capacity is now 2,500,000 metric tons, according to the company's Technical Vice-President, Dr. Alfred Michel. This equals 13.5% of the present total pig iron production in Germany. The added production facility will enable Thyssen-Huette to produce about 3,000,000 metric tons of crude steel a year, about 12% of Germany's steel capacity. But even with the increased capacity, Thyssen-Huette's percentage of German output is below the share the firm held before World War II. "This production expansion of the August Thyssen-Huette," Dr. Michel noted, "does not represent an attempt to obtain a larger part of German steel production; rather we are still attempting to catch up to what we had before."—V. 189, p. 749. With its eight blast furnaces Thyssen-Huette's annual pig iron

## Toro Manufacturing Corp.—Reports Record Sales-

The corporation on Aug. 12 reported that sales for the year ended July 31 totaled \$18,225,000—the highest annual figure ever attained in the firm's 45-year history and 23% above last year's total.

Robert W. Gibson, Vice-President in charge of sales and advertising, gave major credit for the new sales record to the success of the new consumer models introduced this past year: the Whirlwind rotaries with "Wind-Tunnel" action, and the Sportsman, a versatile riding machine that powers a variety of units.

Paced by these new additions to Toro's line of 49 models, domestic and foreign sales of machines for home lawn care registered a 32% increase over last year. Institutional sales of the large machines—led by the new hydraulically operated seven-gangmower Parkmaster; the Greensmower, designed exclusively for golf courses, and the 32-inch Whirlwind—topped 1958 totals by 7%.—V. 189, p. 2833.

#### Union Electric Co.—SEC Issues Notice of Rights Offering Proposal-

The SEC has issued an order giving interested persons until Sept. 2, 1959, to request a hearing upon the proposal of Union Electric Co., St. Louis, to offer 1,036,602 shares of common stock for subscription by stockholders of record Sept. 10, 1959, on the basis of one additional share for each ten shares then held. As previously reported, net proceeds of the stock sale will provide funds to partially reimburse the company's treasury for capital expenditures heretofore made, to retire short-term bank loans, to finance in part the cost of the continuing program of property additions and improvements, and for other corporate purposes. Bank loans are expected to amount \$28,000,000 by the time the additional stock is sold.—V. 190, p. 718.

#### Union Tank Car Co.-New Tanks-

A new design in large capacity elevated water storage tanks for municipal and industrial use, which features a single central supporting column, was announced July 14 by Graver Tank & Mfg. Co., a division of Union Tank Car Co.

Announcement of the all-steel Aquatore, which looks like a huge "doughnut in the sky," was made by Clark Root, President of Graver Tank, with headquarters in East Chicago, Ind. A model of the Aquatore was displayed for the first time at the annual American Water Works convention in San Francisco, Calif.

The Aquatore is the first new design in large capacity elevated water towers in almost a quarter century and eliminates the unsightly struts and tie-rods required on conventional tanks for large-capacity installations, according to Mr. Root.

Capacity of the Aquatore ranges from 300,000 gallons to 3 million gallons and more. It is designed for large-capacity municipal installations as well as for special industrial applications.

tions as well as for special industrial applications.

The Aquatore is the largest water tower design ever to use only a single supporting column. The first Aquatore is scheduled for construction late this summer.—V. 190, p. 404.

#### United Canso Oil & Gas Ltd., Alberta, Canada—Files With Securities and Exchange Commission-

The corporation on Aug. 4 filed a letter of notification with the SEC covering American Voting Trust Certificates for 200,000 shares of common stock to be offered at the market (\$1 per share), through Alex. Brown & Sons.

The proceeds are to be used for expenses for exploring for natural gas.-V. 188, p. 292.

# United-Carr Fastener Corp.-Plans Stock Split-

The stockholders on Aug. 28 will consider increasing the authorized common stock from 1,000,000 shares (par \$5) to 3,000,000 shares (par \$2.50), to effect a two-for-one split-up.—V. 189, p. 749.

## United Improvement & Investing Corp.—Listing—

The Board of Governors of the American Stock Exchange have approved for original listing 1,239,094 common shares of this corporation, which was incorporated in 1958, in New York, and is engaged in mortgage origination, mortgage servicing, title insurance and the development of the Town of Margate, Florida. The town presently occupies an area of 3,773 acres north of Fort Lauderdale and is being developed as a planned community including utilities, business district, shopping center, churches, schools and recreational facilities.—V. 190, p. 718.

# United Pacific Aluminum Corp.—Record Earnings—

The corporation reported a new high for its first quarter sales and profits, while completing installation of two major production facilities. Sales for the three months ended June 30th, 1959 equalled \$2,037,187 and profits \$95,387. This compared to sales of \$1,594,812 and profits \$67,001 for the three months ended June 30, 1958—an increase of \$17½% in sales and 42% in profits. On the basis of 463,500 shares currently outstanding, earnings per share in the first quarter of this fiscal year were 20.5c as compared with 14.4c for the same period last year on the adjusted number of shares outstanding.

The new production facilities will increase United Pacific Aluminum's production capacity of cold roll aluminum coil from 1,200,000 pounds to approximately 3,600,000 pounds per month, and of enameled aluminum coil 800,000 pounds to approximately 2,000,000 pounds per month. Neither of these additional facilities were in operation during the first quarter, and the management of United Pacific Aluminum assumes that with a higher volume of sales and with reduction of production costs, the company's profit margin should be favorably affected in the future. The company is operating with a satisfactory backlog.—V. 189, p. 1396.

# THE U.S. TREASURY SALUTES THE PETROLEUM INDUSTRY

# —and its thousands of employees who help strengthen America's Peace Power by buying U.S. Savings Bonds

People in America's petroleum industry take pride in the vital role of their products and services in the national defense and domestic economy. This year the petroleum industry celebrates its first century and features the slogan "Born in freedom . . . working for progress."

Thousands upon thousands of these people find personal satisfaction, too, in helping to strengthen America's Peace Power through regular purchase of U.S. Savings Bonds. The use of the Payroll Savings Plan makes this sound practice convenient and easy.

If your own company does not have a Payroll Savings Plan in operation at present, take one of these two easy steps to start one and help your people to "Share in America." Your State Savings Bond Director is anxious to help. Telephone him now. Or write to Savings Bond Division, U.S. Treasury Department, Washington, D. C.

L. P. HOLLAND, skilled refinery technician, is typical of thousands of key employees in this field who are buying U.S. Savings Bonds regularly. Mr. Holland, through his company Payroll Savings Plan, is making a personal contribution to the Peace Power of our country.

New York State Thruway

Authority, (State of)
Bond Sale — The \$50,000,000 bonds offered Aug. 19-v. 190, p. 722—were awarded to a syndicate headed by Lehman Brothers, R. W. Pressprich & Co., Blyth & Co., Inc., and Halsey, Stuart & Co., Inc., at a price of 98.00, a net interest cost of about 4.19%, as follows:

\$12,500,000 general revenue series C bonds, as follows: \$1,325,000 6s, due on Jan. 1 from 1966 to 1968 inclusive; \$600,000 51/4s, due on Jan. 1, 1969, \$3,525,000 33/4s, due on Jan. 1 from 1970 to 1973 inclusive; and \$7,050,-000 3.90s, due on Jan. 1 from 1974 to 1979 inclusive.

37,500,000 general revenue Series

C bonds, as 4.15s. The Authority estimates that plete major construction of the Thruway Project will amount to approximately \$884,545,000, of which approximately \$816,931,000 had been expended as of July 1 and an additional \$39,066,000 was under contract on that date. Net proceeds from the sale of the bonds offered Aug. 19 will be used to pay part of the construction expenditures subsequent to July 1, 1959, including repayment of a \$35,000,000 bank loan made on March 12, 1959 for construction purposes. On July 1, 1959 the Authority had unexpended funds of approximately \$39,329,000 available for such construction. Giving effect to the application of such proceeds and unexpended funds, the Authority estimates that net proceeds from the sale of approximately \$17,000,000 additional bonds will be required to pay the remaining cost of major construction necessary to complete the Thruway Project.

The bonds will be payable from tolls and other revenues of the Thruway Project.

The bonds will be redeemable, in whole or part, on and after July 1, 1969 at prices ranging from 103% to 100%, plus accrued interest.

Interest on the bonds is exempt from Federal and New York State income taxes.
